

Microsoft Services Hub for Premier Support

Get the most out of your Microsoft Premier Support investment with access to support and select learning resources

Manage support

- Easily create and manage support requests for your Microsoft cloud and on-premises technologies.
- Track the status of your open support requests at-a-glance and from one central location.
- Ensure key team members stay informed by providing them access to support requests.

Build your team's knowledge

- Stay current on Microsoft technologies with direct access to self-paced learning paths associated with popular WorkshopPlus classes.
- Easily locate services included in your Microsoft contract or offered as add-ons.

Log in to your [Services Hub](#) account today to get started!

Microsoft Accessibility

- Our products and services are built with international accessibility standards such as European standard ETSI EN 301 549 and the Web Content Accessibility Guidelines (WCAG) in mind. Our [Accessibility Conformance Reports](#) describe how our products and services conform to those standards.
- Contact [Enterprise Disability Answer Desk](#) (eDAD) for assistance

Microsoft Privacy and Security

- Microsoft Services Hub is subject to Microsoft's Privacy Statement <https://go.microsoft.com/fwlink/?LinkId=521839>
- To learn more about how Microsoft meets industry regulations, implements and supports security, privacy, compliance, and transparency, please visit our Trust Center to review specific areas: <https://www.microsoft.com/trustcenter>
