

Pangea Group Guatemala Localization Package

Companies used to spend considerable resources managing transactions and complying with a country's accounting and tax legislations. **Pangea's Guatemala Localization Package** is a powerful solution embedded within Microsoft Dynamics 365 that allows the fulfillment of fiscal regulations required in Guatemala.

Register transactions in Microsoft Dynamics 365, guaranteeing all mandatory fields, specifications, and legal regulations compliance thus reducing the amount of time necessary to generate state-mandated reports.

Pangea's Guatemala localization allows you to easily and properly generate the necessary .xml files to be uploaded to the SAT portal and comply with ATS monthly requirements.

ABOUT US

Founded in 2007, Pangea is a business software consulting company focused on the Microsoft Dynamics 365 suite of business solutions.
