

SMS Sender – massive SMS sending

The opening rate is 95% - more customers!

You can use our solution:

- as a **web shop for marketing** aims, to send SMS about discounts, coupons, giveaways
- as a **pick-up point** to notify the customer is the ordered product can be taken away
- as a **supplier** to notify the customer about the delivery's time
- as a **service to notify** the customer if the reparation is ready
- as a **medical station** to notify the patient about the control date

We recommend this service mostly for the companies in the commercial sector, but suitable and useful for any enterprise.

Higher views!

Why do our customers love our solution?

- Nowadays a mobile phone is a must-have product, everybody owns it
- In this case there is no spam list, wrong e-mail address, uncertain postal delivery or unnecessary leaflet division
- The 95% of the sent messages are opened
Quick, effective, purposeful
- It is cost-efficient, because the price of the SMSs is the only expense
Environmentally friendly,
- it is a digital message thus protects the environment

Useful information for SMS sending

Maximum message length that can be sent:

The length of the content is limited. A message can be sent in up to 3 SMS.

Maximum number of characters:

The size of one GSM message: 160 characters, size of two GSM messages: 306 characters, size of three GSM messages: 459 characters.

The GSM standard does not contain certain Hungarian characters, so in this case it will be sent according to the Unicode standard!

The size of one Unicode message: 70 characters, size of two Unicode messages: 134 characters, size of three Unicode messages: 201 characters.

Before ordering, we recommend you to send us the required content and we can indicate which of the above two standards are fulfilled by your text and how many messages will it be.
