# 1 Configure Now!

## 1.1 Configure Now!:

This is enhancement to existing Microsoft Navision 2016, this will help to sales person to estimate cost instantly and margin / profit % System will suggest the sales price. Sales Person can negotiate with customer and create Sales Quote and Sales Order immediately, in case of New Item system will allow to create BOM and Routing from Configure Now! page, if the new Item is look like an existing Item, then user can copy BOM and routing from any existing Item and make necessary changes and then create BOM and routing for new Items. Following are the main feature of the system.

1. Automatic calculation of cost.
2. Modify component and re-calculate the cost
3. Allow to copy BOM and Routing from any existing look like item
4. Allow to create sales quote / Sales Order directly from estimation working
5. Allow to create production order directly from Sales Order. System is capable of consuming items suggested in Configure Now! instead of default BOM

### 1.1.1 Configure Now! List

Configure Now! list is the total list of estimate on which a sales person is currently working, Click on “New” to create new Cost estimate, “Edit” to edit existing cost estimate and “View” to view existing cost estimate and “Delete” to delete existing cost estimate.

No. ↑	Customer No.	Document Date	Status	Sales Quote No.	Sales Order No.
CE-1110	01454545	3/18/2020	Closed		1008
CEST-1043	01454545	3/18/2020	Open		
CEST-1044	01445544	3/18/2020	Open		
CEST-1045	01121212	3/18/2020	Open		
CEST-1046	01905893	3/18/2020	Open		
CEST-1047	01121212	3/19/2020	Open		

### 1.1.2 Create New Cost Configure

After Click on “New” blank page will open and select the customer in header and Item in line for whom you want to raise the estimate. You will notice system will automatically populate the “unit cost”, “unit price” from Item Master. “Material Cost” and “Setup Cost” from BOM and Routing. System will add up all together and suggest the base cost. You can add profit % and system will suggest the “Unit Price” and further you can change the suggested price if you want, after that you can create Sales Quote or Sales Order. In case of New Item system will help to create the BOM and Routing from the Configure Now!.
