

Which challenges do organizations have to face regarding to knowledge management?

- Employees leave the company
- Global working needs new tools
- New learning style requires alternative knowledge transfer

Our answer:

The knowledge management platform Industrial Tube

Industrial Tube is developed to capture, secure and share the knowledge that an organization has gained over years. Expert knowledge will be recorded and can be shared within the company by video. Simple, fast, worldwide and without language barriers. By experts for experts.

<p>RECORDING APP</p> 	<p>CONTENT MANAGEMENT SYSTEM</p> 	<p>ENTERPRISE PORTAL</p> 
<p>RECORD</p> <p>→ Record videos without previous knowledge</p>	<p>ENRICH</p> <p>→ Clear management of all videos with different enrichment options</p>	<p>WATCH</p> <p>→ Watch all videos in a closed Enterprise Portal</p>

Which values do you ensure by using Industrial Tube?

Saving and sharing of knowledge:

- Documentation of knowledge
- Share and spread knowledge
- Save internal process know how
- Improve process safety by documentation of knowledge

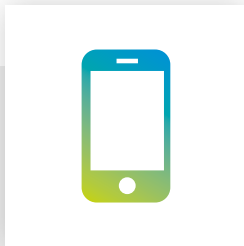

Saving money with efficiency enhancement:

- Increment of working efficiency
- Improve flexibility of your employees
- Increased training efficiency by 24/7 availability
- Improvement of execution quality and machine handling documentation of knowledge

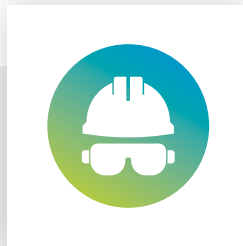

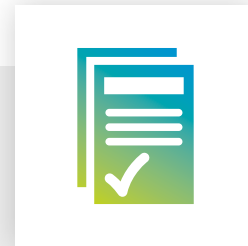

How does Industrial Tube guarantee the quality of the video content?

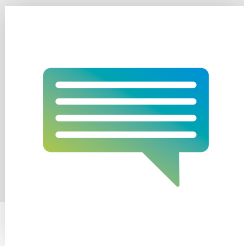

→ Safety instructions before record

→ Consideration of work safety

→ Defined workflows for process safety

→ Transparent copyright notes

→ Content check

→ Controlled access

Which previous knowledge do you need for the use?

NONE, BECAUSE THE APP CONTAINS:

- Easy user guidance
- Step-by-step tutorials
