What is Event Check-in?
The Event Check-in app is one of Barhead's pioneer canvas apps and is an extension of Dynamics 365 for Marketing solution. This canvas app gives a single view of events in an organisation and allows employees to reserve and check-in attendees in real time.

App Description:
The Event Check-in app allows employees to view the upcoming events of the organisation. The app leverages Power Apps to manage events lists and registered guests. It is also modified to work with Dynamics 365 Marketing which provides end-to-end support for event planning and registration process.

App Benefits:
• Manage events more efficiently.
• Provides additional mobility for event managers.
• Integrate events data with Dynamics 365.

App Features:
- View past, present and upcoming events.
- Register attendees.
- Add walk-in attendees.
- Add new contact records and link to CRM.
- Search registrants' names and do a quick mobile check-in.
- Filter event searches based on event types, event titles and event dates.
# Offerings and Delivery Models that are Tailored to Specific Demands
