

An Easy to Use, Easy to Adopt, CRM
solution built on the Dynamics 365
Platform, that you can never outgrow

Built and Supported by:
FORCEWORKS  **GLOBAL**

RapidStartCRM
Powered by Microsoft Dynamics 365

All-Industry Bizapps

For customers of any size, who are apprehensive about Business Applications, due to cost or perceived complexity, RapidStart CRM is an excellent path to start your journey with Microsoft Business Applications.

Challenges

Some customers, concerned about cost, complexity or user adoption, prefer to “start small” and grow into advanced Business Applications capabilities over time

Ideal Solution

RapidStart CRM is an easy to use “CRM” built on the PowerApps platform, with a simple “one-click” capability to upgrade to the full first-party Dynamics 365 apps when you are ready

Desired Outcomes

Start on a platform you can never outgrow, by gaining user adoption first, with an easy-to-use approach. Then add all the power you could ever need, at your own pace.

What is RapidStart CRM

The basic features you need to get started quickly, inexpensively and successfully, with Microsoft Business Applications.

RapidStart CRM is Certified for Dynamics 365 and is the #1 Packaged Deployment offering since 2015

Structure

A Simplified CRM Application built entirely on the Common Data Service, utilizing the new Unified Interface

Features

Company, Prospect and Contact management, Opportunity Management and Case Management, all together in one intuitive application.

Future Proof

Upgrade from RapidStart CRM to the full power of Microsoft Dynamics 365, at your pace, either by workload, or all at once, with no loss of data or history.
