Ideas App

Generate, assess, submit and approve ideas on a single mobile device.

What is Ideas App?

The Ideas app is a mobile platform where employees can submit proposed ideas to improve the processes and business solutions of their organisation. The app serves as a central location for documentation and approval process making all the submitted ideas easy to view and navigate.

App Description:

The ideas app is built in Power Apps and is integrated with Microsoft Teams and Office 365. Users can receive notifications via Outlook and get status updates in the Teams Ideas channel. Once approved, ideas will be automatically posted on the Teams Wiki page.
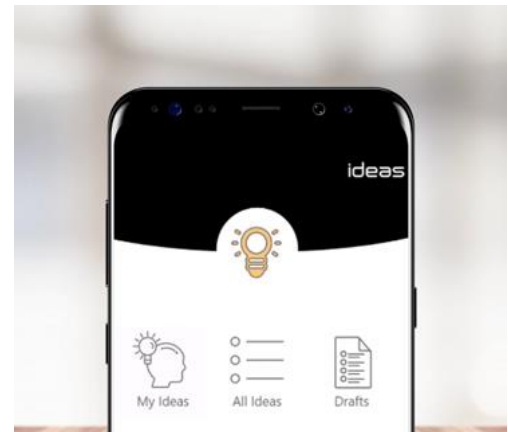

App Benefits:

- Smooth and seamless documentation of proposing ideas in an organisation.

- Streamlined approach in reviewing and approving ideas on the pipeline.

- Automate processes and keep everyone informed from the initial stage to posting the approved ideas on Teams Wiki.

App Features:

Register all details about the proposed idea via Power Apps canvas.

Store and manage data by using Common Data Source (CDS).

A model-driven app is built to store all submitted ideas.

Connect with Office 365 to send and receive status updates.

Integrate with Microsoft Teams once the idea has reached "Assess" and "Approved" status.

Automate workflows and announcements through Power Apps custom connectors.

Offerings and Delivery Models that are Tailored to Specific Demands

Leverage Microsoft Solutions and Realise Value Faster
