

Engaging, simulation-based training: Microsoft Teams

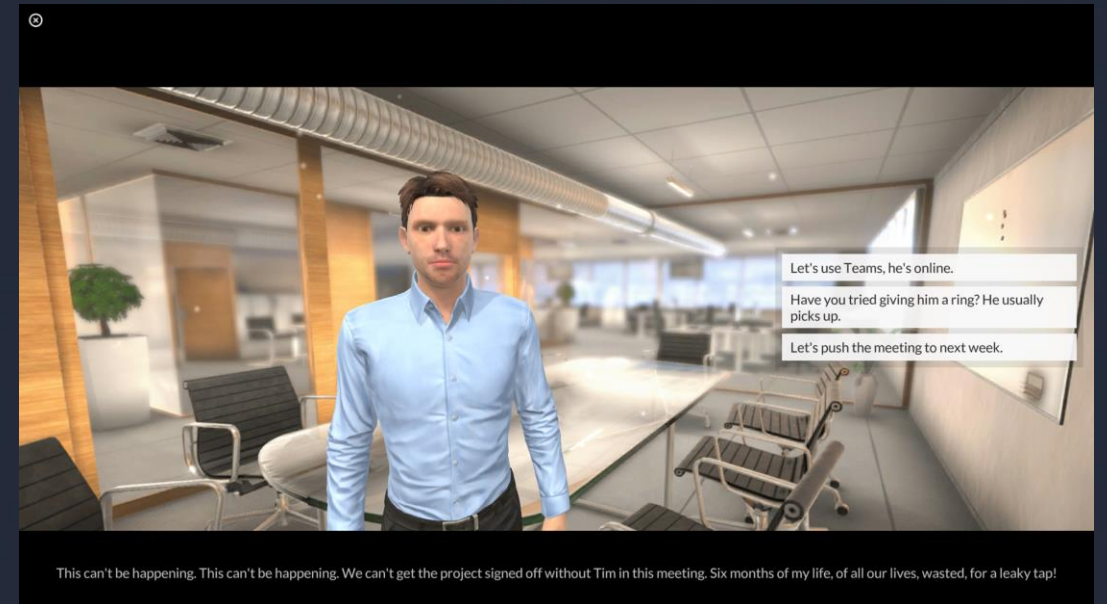

Become a Microsoft Hero with Attensi PROCESS

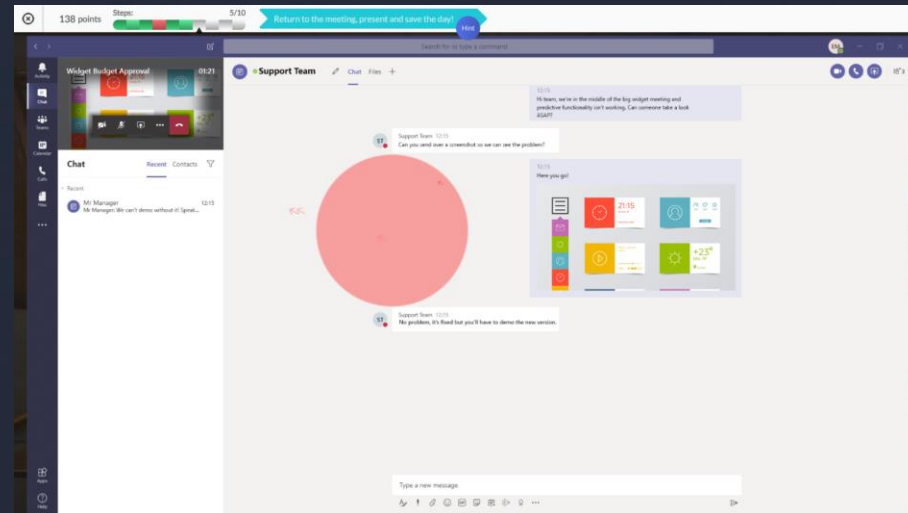

We offer **6 complete modules**, as well as the possibility to develop custom made training modules for your company

You will face **realistic situations**, talk to colleagues and solve challenges often faced when using Teams/online meetings

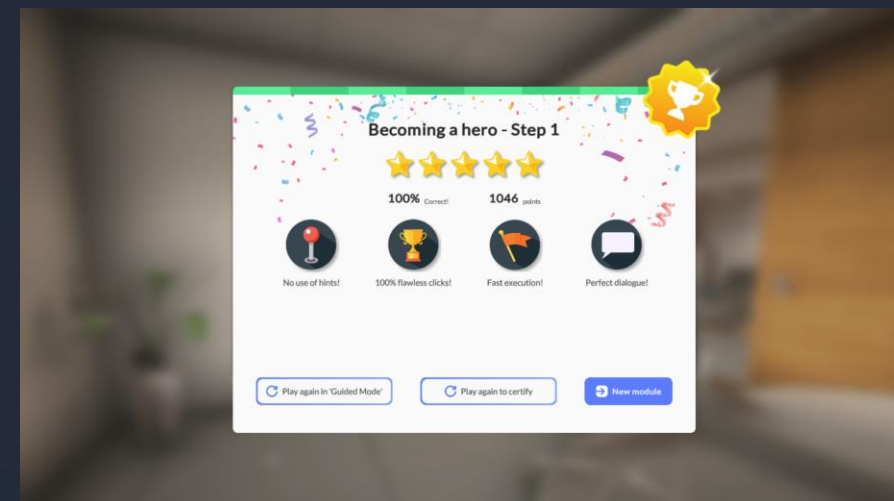

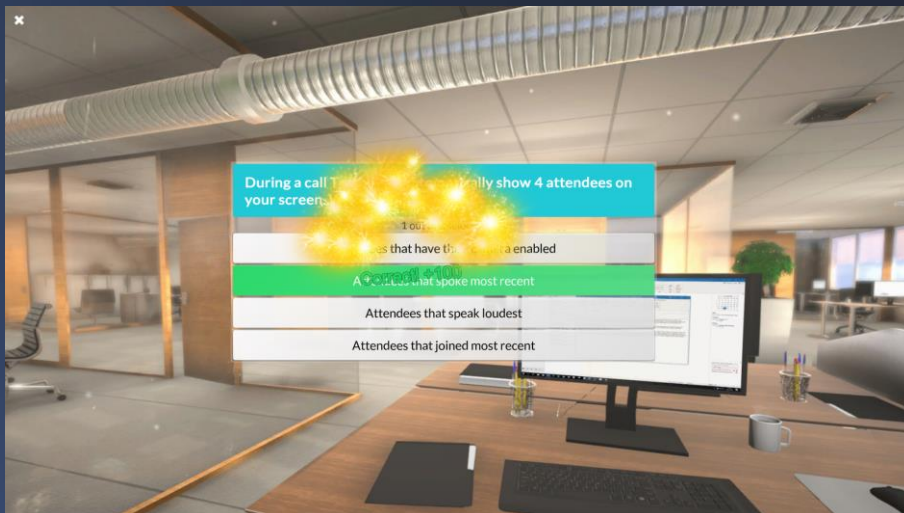

Become a Microsoft Hero with Attensi PROCESS

The simulations will give you **concrete challenges** that you can train on (with help) until you master them and you are ready to **become certified**

You will get quizzes as well as **immediate feedback** with sounds, stars, points and high score lists

Solution: Attensi PROCESS

An interactive and more efficient way to learn/train

- Attensi PROCESS not only teaches you how to use an IT system, but also why and when to use it
- Gamification makes it more fun and makes sure increased repetition of the training
- Repetitive training on realistic scenarios gives a higher training effect
- Possibilities to further develop this training with customized content for each customer
- Possibilities to use Attensi PROCESS on other IT areas going forward
- Access to the Attensi Technology Platform
- Attensi is GDPR compliant and ISO 27001 certified

Solution: How to get started
