

# NICE Investigate

## Digital Police Investigation and Evidence Management

Ensure successful prosecutions & close more cases faster

Police departments everywhere are investing in digital police initiatives to better safeguard the public. But the growth in volume and variety of evidence is making investigations more complex than ever before and impacting solvability of cases.

### What is NICE Investigate?

NICE Investigate is the Microsoft Azure Gov cloud based solution that breaks down information silos and brings all needed information right to the investigator. It automates and expedites manual, time consuming tasks and makes investigators more efficient and effective by helping them collect, analyze and share evidence.

### Integrate Content from Siloed Data Sources

- Draw evidence from disjointed systems into a central repository
- Effectively crowdsource evidence from security cameras and more
- Convert media into standard format for universal, one-screen access

Evidence gathering no longer a culprit in delayed case resolution

### Build Better Cases with Big Data Analytics

- Rapidly search and connect all types of evidence, visualize context on maps and timelines
- Uncover hidden insights with powerful correlation engine
- Take it with you on a smartphone

Investigators become more effective crime solvers

### Why agencies use NICE Investigate

The solution dramatically improves crime investigation processes and outcomes:

- Reduces time and expense of evidence collection by automating intake and organization of relevant data and media
- Built-in analytics helps investigators uncover and correlate crucial insights
- Electronic sharing of evidence improves collaboration with other agencies and prosecutors
- More cases are successfully filed and prosecuted

### Securely Share Evidence with Prosecutors

- Share hundreds of different evidence items with a few clicks
- The burden of making physical copies of evidence is lifted
- Comprehensive chain of custody is tracked automatically

More criminals can be taken off the streets and put behind bars

"NICE Investigate helps us solve our cases more efficiently now that all information is in one place, fast and easy to get to. We are able to save taxpayers' dollars in reduced fuel expenses, wear and tear on vehicles, and a better use of man-hours. But at the end of the day, what really matters is bringing faster case resolutions, so that victims can get closure and begin healing."

- Chief of Police, Mid-sized Police Department in Southeastern US

# How NICE Investigate works to achieve operational benefits

## Cloud-based solution improves operational agility and accessibility of information

- Hosted on Microsoft Azure Gov, NICE Investigate makes all types of evidence readily accessible
- NICE's SaaS (Software as a Service) solution limits the up-front hardware and resource costs associated with premise-based storage alternatives
- Ideal for agencies with fluctuating case loads

## Automation of manual processes results in direct operational savings

- At least 1 hour savings per case
- Reduced paper and physical file storage costs
- Reduced wear and tear on vehicles
- Improved utilization of specialist man-hours
- Court cost savings as a result of faster case resolution

## Certified CJIS compliant platform eliminates security concerns

- NICE and Microsoft Azure Government meet the security requirements for federal, state, and local governments as defined by FBI's CJIS policy

## Savings Estimate

Conservative assumptions:

- 4 pieces of media per case
- Save 1 hour per case (15 minutes per piece of media)
- Cost per hour of \$80 (including benefits)

Savings per case = \$80

- at 4,000 cases per year

Min. Annual Savings = **\$320,000**

## NICE Investigate Online Portals Promote Tighter Collaboration

One of the industry's most comprehensive, open solutions for managing investigations, NICE Investigate promotes collaboration among satellite agencies, communities, investigators and prosecutors, enhancing the effectiveness of law enforcement.

NICE Investigate tracks continuity of evidence as it is collected, organized and distributed, encouraging the adoption of consistent, repeatable processes and practices.

## Tangible Benefits / Desired Outcomes

- Freed from the chore of manual evidence collection, investigators can fully focus on what they do best – solving crimes
- Citizen trust in law enforcement grows with its increased effectiveness, community engagement and responsible spending

## Why NICE?

Leveraging 30+ years of experience helping thousands of public safety agencies manage their digital evidence, NICE has developed the industry's first end-to-end digital investigation and evidence management solution. Running on the Microsoft Azure cloud, NICE Investigate automates the collection, analysis and sharing of ALL digital evidence, so investigators can close more cases faster.
