WHY CAMELOT 3PL SOFTWARE?

Camelot 3PL Software provides Warehouse Management Software exclusively to third party logistics (3PL) warehouses to streamline operations, reduce costs and increase service levels.

PROVEN EXPERIENCE

Since 1987 Camelot 3PL Software has been a leader in the evolution of the modern-day 3PL WMS. We have a deep understanding of the today's demanding supply chain.

RELIABLE SUPPORT

Purchasing a WMS is only half of the equation. At Camelot all system sales include free comprehensive online training and access to our experienced implemetation consultants and support staff.

WHY EXPRESS WMS?

Express WMS™ is a cloud-based solution designed to quickly streamline the management, reporting and billing of your business. Express WMS includes an intuitive user interface that allows the system to be operational in days, not months!

LOW COST ENTRY

Using a Cloud (SaaS) model for Express WMS eliminates upfront costs commonly associated with on-premise solutions. Our quick implementation makes it even easier!

UPGRADABLE

Express WMS is designed for startups and warehouses with fewer users. However, the system is seemlessly upgradable to our highly configurable Excalibur WMS.
