

MazikCare Back-to-School Solution

Ensure your return is safer, well-managed, and confident for all

As faculty, staff, and students return to class, public health and personal safety remain a top concern. Mazik Global's Back-to-School solution offers **secure symptom and risk tracking, case management, and workflows** that give administrators real-time visibility into who's healthy enough to rejoin and remain on campus. This quick-deploying Microsoft PowerApps solution empowers you to **make decisions faster, keep staff and students safer, and ensure your school year remains on track.**

Features

One easy-to-use app for all

Track user symptoms, concerns, frequent contacts, location check-ins, and COVID-19 exposure in a single app

Simple data dashboards

Easy-to-read dashboards aggregate detailed tracking data for real-time insights

Individual case management

Easily monitor any user's health risk status over time

Workflow automation

Get alerted if anyone is showing symptoms or is newly cleared to return to campus

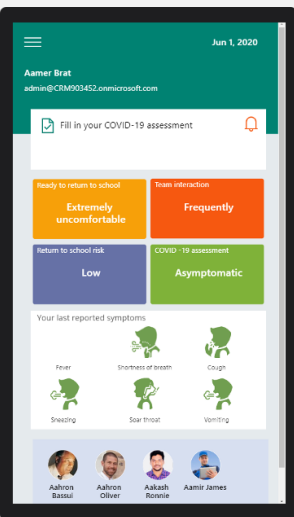

Reminders and alerts

Push notifications remind users to log responses; alerts broadcast updates and notices to the whole community

Secure platform

Built on the HIPAA-compliant Microsoft Azure platform

Available as a mobile app or a Teams integration

Benefits

Keep faculty and students safer

Included contact-tracing workflows ensure contacts self-isolate sooner, mitigating spread

Act on illness disruptions faster

Clearer, centralized reporting gives you the power to keep campus operating smoothly

Instill trust and calm on campus

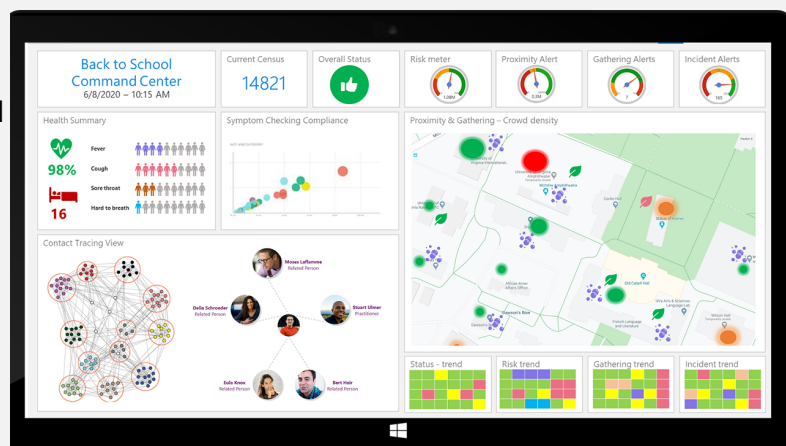

Reduce faculty and student concerns with consistent messaging and notifications

Show commitment to a healthy campus

Show the measures your organization is taking to keep everyone safe and potentially return sooner

Deploys in just days

We also implement our solution, to help you improve crisis management in minimal time
