

Carbon – Dynamics 365 Commerce store theme

Visionet Systems, Inc.

Overview

Carbon is a store theme that modern retailers can apply to their Microsoft Dynamics 365 Commerce digital storefronts. Carbon's clean and elegant user experience provides an alternative way to organize and present product lists, product details, and on-screen controls on your online store.

Visionet's Carbon theme is highly customizable and streamlines your brand's online customer experience of home page, product pages, search, checkout and account pages.

Key Features

- Intuitively positioned product carousel buttons
- Concealed sort and filter controls on product list pages
- Highly visible controls for product size on product detail pages
- Clear toggle buttons in checkout for shipping and pickup

Key Benefits

- Enhances visibility of online store features
- Optimizes use of screen space
- Simplifies navigation through consistent user interface
- Reduces time to purchase
