

Next generation email solutions made possible with Microsoft Azure

"I would absolutely recommend SMX to other businesses. It's a powerful tool, and easy to manage. And we don't have to invest a lot of time or resources to manage it – it pretty much looks after itself. It just works."

**Mr. Reyna Ramirez Montes, Security & Compliance Manager,
Genesis Energy**

Situation

- Malware, phishing and whaling attacks pose great security risks, including having confidential information or money stolen
- Customers having difficulties retrieving information quickly for various purposes and unable to meet compliance obligations
- Customers spend too much time dealing with unnecessary spams

Solution

- Advanced email records management and compliance
- Enhanced security, compliance and filtering
- Unsurpassed archiving - one place to search, discover and hold
- Proven migration tools to keep all emails in one place
- Seamless integration of email security and archiving for Office 365

Benefits

Recover any email regardless of age, source or destination

Manage and make changes to email configuration without external specialists

Answer critical questions with evidence-based reporting

Multiple world-class email filtering systems to protect your people and organization
