

UNITOP NPO Academy

<https://www.unitop-welt.de/en/unitop/unitop-npo/academy/overview/>

YOUR SOFTWARE FOR SEMINAR MANAGEMENT - FOR THE SMOOTH RUNNING OF YOUR EVENT - FROM PLANNING AND IMPLEMENTATION THROUGH TO FOLLOW-UP WORK

You can handle all tasks efficiently and transparently with just one database with our integrated software for seminar management - with certified financial accounting included

Our unitop NPO Academy industry solution is aimed at private educational institutions, seminar providers and conference organisers. unitop NPO Academy covers all requirements with respect to the professional planning, management and invoicing of your events. You can manage extensive data about your participants and lecturers so that you can get an overview, for example, of their qualifications, level of education or agreed fees. In addition to industry-specific functions, our software solution of course also offers you the option to integrate your complete financial management (financial accounting, asset accounting, cost accounting, payment transactions), your enterprise resource planning (ERP) as well as the document management. The software certificate for the standard Microsoft Dynamics NAV software provides the necessary security to satisfy your auditor.

STABLE OPERATION

unitop NPO Academy software for educational institutions is so well-engineered that it reflects the processes in your organisation in standard functions like no other software for academies. This high level of standardisation accelerates the implementation and supports a stable continuous operation, easy updating and maintenance and low-cost Cloud hosting if needed. It goes without saying that unitop NPO can easily be adapted to your individual requirements if desired.

CONVENIENT TO USE

With unitop NPO Academy you enjoy the convenience and transparency of integrated software for your educational institution, allowing you to easily use all Microsoft applications in the unitop interface. External programs can be easily connected via web services.

DATA ACCESS WORLDWIDE

As you conduct your day-to-day business completely from the unitop NPO Academy software, you and your employees always have access to all relevant data and data sources in your organisation - anywhere in the world and with any device. Interfaces and sources of error disappear, thus creating transparency: You save time and money.

INDIVIDUAL INTERFACE DESIGN

The more focused the information available to you, the more successful the measures based on it. We rely on the so-called role personalisation of Microsoft Dynamics NAV to improve your efficiency and decision-making and further simplify the use of the unitop NPO Academy software. This ensures that you only see the information that you actually need in your day-to-day business in your academy software interface. It looks familiar and is easy to use thanks to the look and feel of Microsoft.
