Prerequisites

To trial Tag Manager you need the following in place:

1. An internet connection with a modern browser
2. Access to an Azure Subscription (with at least **READ** permissions to see tags and at least **TAG CONTRIBUTOR** rights to manage/modify tags – more about Azure RBAC can be found here).
3. Admin consent for the Tag Manager application in your directory in case you do not have permissions to register applications in your directory and give consent to applications in your directory (more on the topic here)

Note: If you don't have access to an Azure Subscription or can approve the app registration in your tenant please talk to you administrator or request a demo account as described below.

Getting Started – for users

For Tag Manager to our application needs to be registered in in your directory.

| #	Description	Picture/Additional Description
