

Walk-in Reservation

An app that allows walk-in room reservations through designated devices in the office

What is Walk-in Reservation?

The Walk-in Reservation app provides users with a centralised app to view meeting room availability and make reservations. The app will be installed in devices placed strategically around the office for the users' convenience.

App Description:

This canvas app was built through Power Platform. Through custom connectors, it integrates with Power Apps API and Office 365 for data stored in the users' My Planner app.

App Benefits:

- Walk-in and create room reservation at the doorstep of the selected meeting room.
- A centralized solution for an organisation's meeting rooms.
- Intuitive and visually appealing user interface.

App Features:

View availability and reserve meeting rooms through one app.

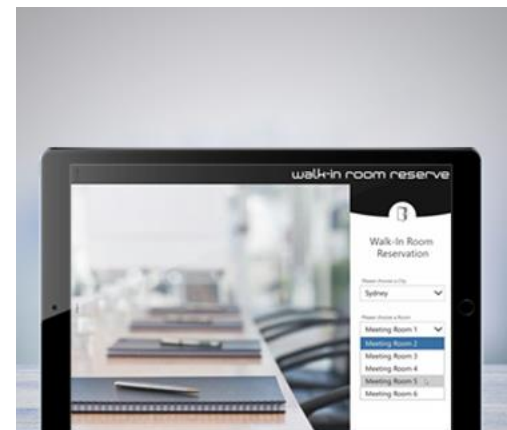

Schedule meetings remotely from other branches.

Customise fields and add descriptions for meetings.

Gain access using credentials for the organisation's domain.

Offerings and Delivery Models that are Tailored to Specific Demands

Leverage Microsoft Solutions and Realise Value Faster

Advisory Services

Governance	Assessment and advice to establish a tailored governance framework
Ideation Services	Facilitated ideation workshops to explore and validate solutions
App Review	Review of existing apps against best practices with supporting findings and recommendations
App Assessment	Assess new apps or migrating legacy apps onto the Power Platform
App Roadmap	Define a strategy for building and implementing Power Apps
Proof of Concept	Rapidly develop an application or solution to prove out Power Platform
End-to-End Solution	Full project implementation
Retainer	On-demand, near real-time advice across a broad set of functions
Managed Services	A tailored agreement providing production support, applications and solutions

Enablement Services

App in a Day	One-day hands-on workshop to explore the potential of Power Apps
Flow in a Day	One-day hands-on workshop to highlight the function of Power Automate
Dashboard in a Day	One-day hands-on workshop on Power BI to demonstrate data links and report generation
Power Virtual Agents in Day	One-day hands-on workshop on building chatbots using Power Virtual Agents
Admin in a Day	One-day hands-on workshop on effectively managing Power Platform
Hackathon	One-day hands-on session to solve real-life business scenarios in a supported environment
Power Platform in a Week	One-week hands-on program including 3 In a Day workshops, followed by a two-day Hackathon

Barhead provides global enterprise level services.

Power Platform tools –
Power Apps, Power
Automate, Power BI and
Power Virtual Agents.

Business solutions for
standalone apps, or apps
that extend existing
Microsoft solutions.
