# Services Overview

---

# A bit about us...

---

- Servicing Financial, Media, Telco, Retail and compliant verticals;
- Integrated professional & managed services suite removing complexity from digital transformation;
- Enterprise-first security, network, governance and compliance perspectives;

We help maintain your technical leadership and maturity throughout digital modernization.

# We're #Amazing\_Together...

---

**GOLD  
PARTNER**

Gold  
**Microsoft Partner**

# The Digital Problem...

---

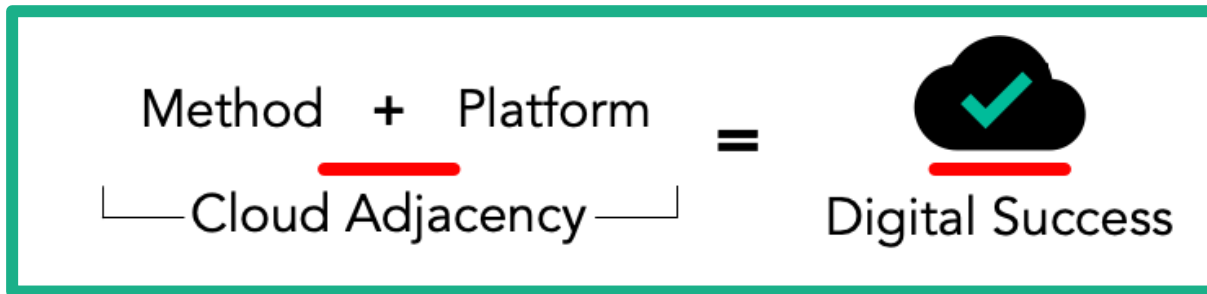

- Modernizations are disruptive
  - **Organizations need to refocus;**
  - Budgets / time allocated to maintaining existing / **deprecated technologies;**
  - Lack of resource / time / focus **constrains innovating digital enablement** (Forrester);
- Transformations introduce risks
  - Skills gap,
  - Rate of **technology change,**
  - Complexity,
  - Delivery **velocity.**

# Why Oncore...

---

- Solution = **Cloud Adjacency**.
  - Method – Alignment of strategy, design, security/transit/governance + migration;
  - Platform – Enterprise-first infrastructure services in-line with the cloud data path.

# “The Method” = Professional Services

---

- Accelerate and de-risk digital transformation strategies:
  - Enterprise Cloud Foundations;
    - Strategy / roadmap, governance, security, tooling + alignment.
  - Transit and security transformation / optimization;
  - Data Center and Infrastructure modernization;
  - Data + Workload onboarding.
- Infrastructure-centric perspectives - security, network, governance and compliance;
- North America-wide delivery (onsite & remote).

# "The Platform" = Managed Services

- Data Protection Platform

- Fully managed data protection platform;
- Enterprise-grade cloud native backup + DR.

- UniversalEdge

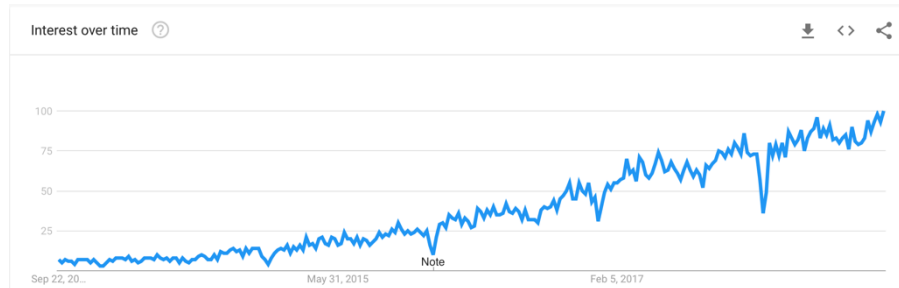

- Managed on ramp connecting to + aggregating public clouds;
- Naturally extend corporate security, governance and compliance controls.

- Managed Hybrid Cloud

- Managed, elastic compute / storage;
- Easy onboarding via Oncore DataStream;

- Cloud Adjacent Private Storage

- Connect Block, file, object storage directly to public clouds;
- Single instance, multi-cloud storage.

Google Trends

Search term

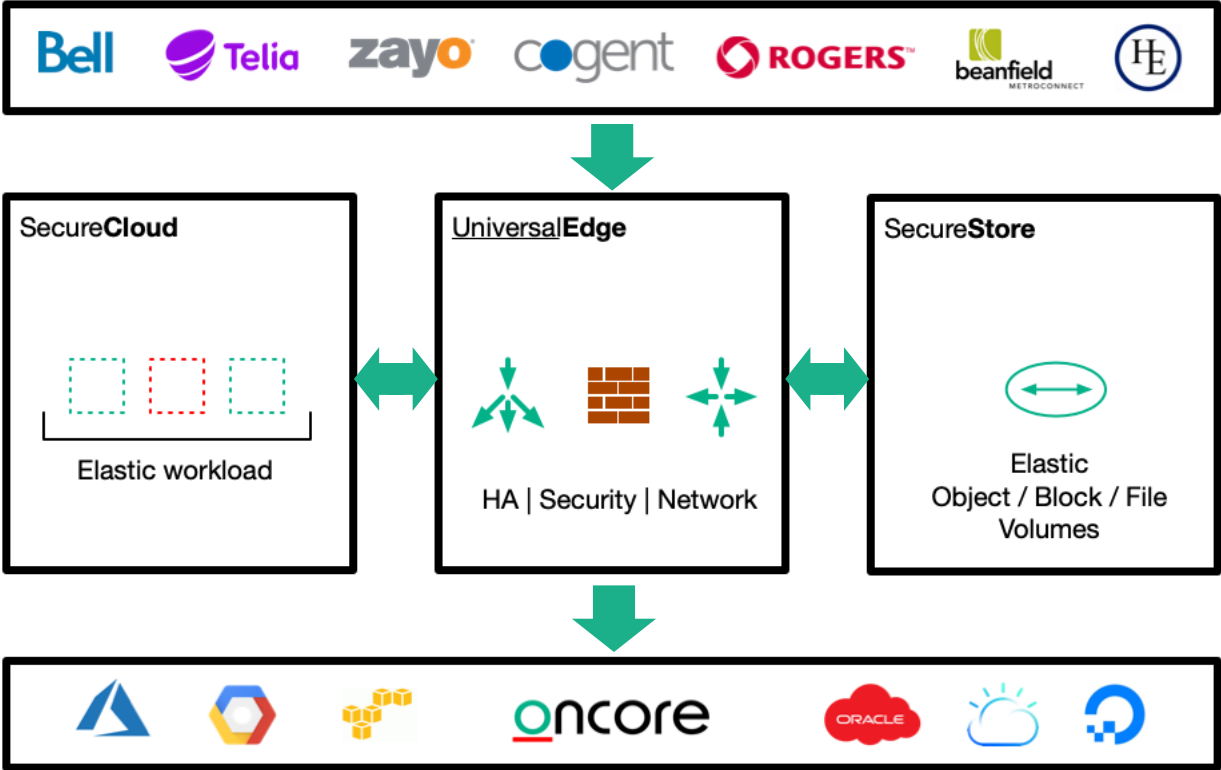

# “The Platform” – Tech Specs.

---

- **It's all about the network**
  - On-net w/ in-market carriers + mainstream public clouds;
  - Native, transparent customer-directed security perimeter;
  - Private by design;
  - Fully managed transit + optimized Internet presence;
  - Extend existing security, governance, compliance controls into the public cloud.
- Proximity matters
  - ~ 1.5 ms from Azure Canada Central;
  - < 50' from GCP + < 300' from AWS network PoPs;
- **Tier III** (and better) industry-leading facilitates
  - Global interconnection and data center presence;
  - Financial services / compliant vertical aligned.

# Cloud Adjacent Platform Core Architecture

# Why Oncore?

---

- Remove complexity;
- Simplify Interconnection;
- Integrated Cloud **Adjacency**
  - Industry-proven transformation strategy + enablement;
  - Enterprise-first infrastructure services;
- Digital Modernization.

**Cloud Natively.**
