- ◆ Initial Report Specifications Review
- ◆ Reports
 - ◇ Identify Changes Needed
 - ◇ In-Session Modifications
 - ◇ Off-Line Modifications
- ◆ Follow-up Support

Specializing in Supply Chain Operations:

Manufacturing * Distribution * Retail * Reporting * Trades

Who is Beacon Grace?

Beacon Grace LLC, and its Enterprise Resource Planning specialists, have worked on a wide variety of projects, assessments, and consulting assignments to help supply chain organizations better manage inventory, their operations, and their systematic tools. Our goal is to help your organizations improve and grow.

What to expect?

The Custom Report implementation is to walk you through modifying reports and to support your operation's unique reporting needs. This 8-hour implementation provides guidance and personalized attention through the process of modifying existing report templates to get customized reports.

Customized Reports: Dynamics 365 Business Central
