Introduction to Customer Care Chatbot

This 2 hours briefing session introduces The Cloud Factory Customer Care Chatbot, powered by Azure Bot Services and Azure Cognitive Services.

With expert guidance from The Cloud Factory senior consultant, this briefing helps organizations understand the basics of a Chatbot and how it helps increase their customer care capacity and customer satisfaction, using real-life use cases.

Agenda

- Introductions
- Chatbot: What is it all about?
- Use Cases
- Powerful Features
- Question and Answer Session

** The session is delivered virtually*
