AKVELON

Akvelon was founded in 2000 to provide superior IT project support and software development solutions. Our clients range from tiny start-ups to global corporations, many with deep roots in the Puget Sound region.

With over five hundred employees at seven offices worldwide, Akvelon is rapidly growing. Our firm is a global network of offices led by our partnership group. We have years of experience helping clients on a global scale drive innovation, productivity, and business performance.

WHY WE'RE DIFFERENT

Here at Akvelon, we work with clients to achieve success in their strategic goals and day-to-day missions. We are problem solvers with deep technical knowledge, cutting edge ideas, and a passion for outstanding performance. We tackle the most difficult IT issues and challenges our clients face, delivering long lasting results with incredible value. We have years of experience helping clients drive innovation, productivity, and business performance.

We are the trusted counselor to many of the influential businesses, government agencies, corporations, and institutions in the Puget Sound area. We are continually recognized for our quality work and functional expertise by our clients and partners. Akvelon is a private company with corporate headquarters in Bellevue, Washington.
