Why Do Companies Choose ProServeIT?

What can you expect from working with ProServeIT?

Tenacious about Maximizing ROI

Whether that means making sure you purchase only what you need, when you need it, or ensuring that your organization is fully utilizing what you have bought, we look to ensure our success criteria is aligned with our customers' desired outcomes.

End-to-End Digital Transformation

We go end to end on our customers' digital transformation journey, including working together on infrastructure, productivity, security, and managed services. We offer guidance through every stage of our customers' digital transformation, helping them be more effective, efficient, and safe.

Security First

We apply a security lens to everything we do. Helping our customers secure their identity, data and devices and manage advanced cyber security risks is our priority.

Digitally Transform Your Business with ProServeIT
## Service Offerings & Technologies We Work With

CLOUD TRANSFORMATION

We've migrated over 300K+ users to the Cloud! Utilize our expertise and experience to digitally transform your business through the Cloud. It's cost-effective, reliable, and flexible.
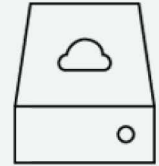

PROFESSIONAL SERVICES

Work with our professional services team to design and build your unique projects, including implementation, migration, and optimization of innovative Microsoft technologies.
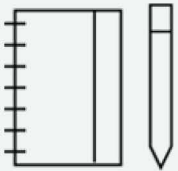

SOFTWARE DEVELOPMENT

When an out of the box solution doesn't fit what you're looking for, our highly experienced developers can create a customized application that meets your unique needs.
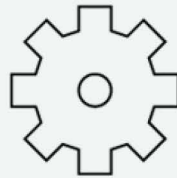

INFRASTRUCTURE

Our team will help you create comprehensive, scalable, flexible, and secure IT infrastructure systems to help you stay productive and continue to innovate.

CHANGE MANAGEMENT

End user training, success management program, IT training – whatever your organization needs, our team is ready and able to assist.

MANAGED SERVICES

Our IT Managed Services team has over 15 years of experience, and will work with you to help you increase automation, improve operational efficiency, and decrease costs.

IT ROADMAP

It's an advisory engagement to help senior management understand how to leverage IT as a critical business advantage and close the gap between their business needs and IT capabilities.

Office 365   Azure   Microsoft Dynamics 365   SharePoint   Enterprise Mobility + Security

Power BI   Windows 10   OneNote   Exchange   Skype for Business
