S/4HANA Proof of Value

For existing SAP customers interested in the real value of S/4HANA and its impact on their own SAP systems.
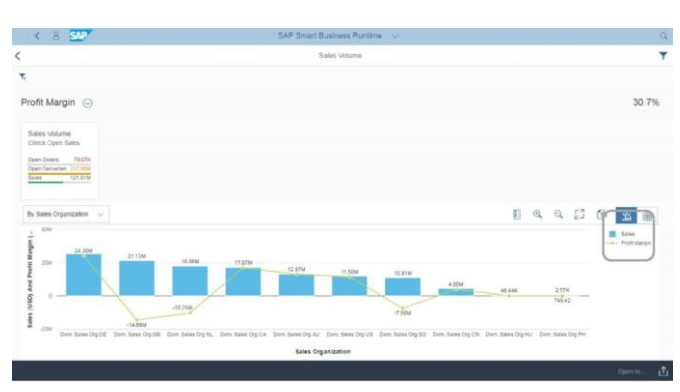

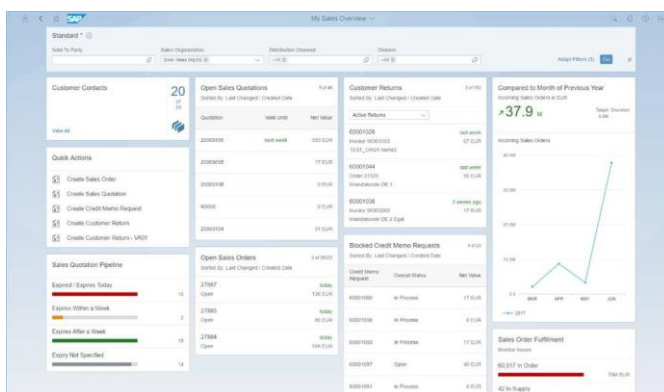

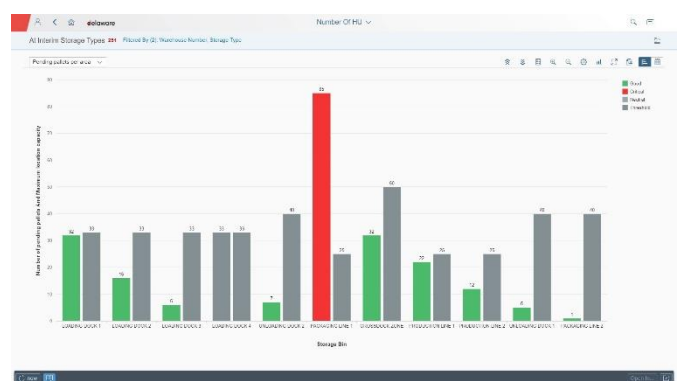

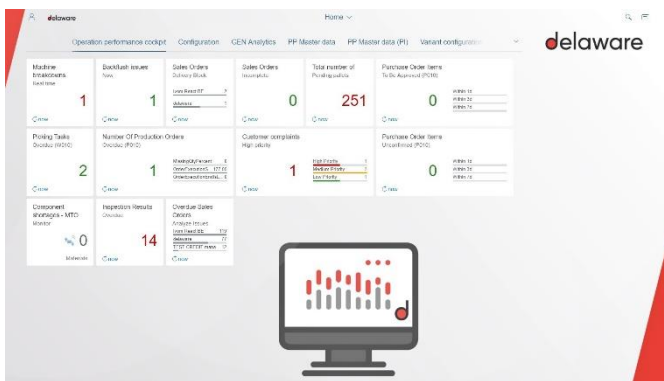

WHAT

The S/4HANA Proof of Value offers existing SAP customers the possibility of experiencing the benefits of SAP's digital core in their own environments. It is built up based on a copy of the live system that is migrated in a lean way to S/4HANA. The S/4HANA solution will be running on the Microsoft Azure platform serving as temporary cloud environment. As such, it allows the old and new systems to be compared in parallel.

BENEFITS

- Experience S/4HANA benefits with your own data
- Get insights into migration efforts
- A no-risk, low-cost approach
