

SaaS Integration with Azure Logic Apps: 5-Day POC

SaaS Integration with Azure Logic Apps

Logic Apps as part of Azure Integration Services (AIS) is a reliable and scalable platform to Integrate SaaS Applications. As more and more organisations move towards best of breed SaaS applications, integrating applications to provide seamless view of business is critical. AIS is a complete data, process and API integration platform to deliver connected applications.

Why NeosAlpha

We are a certified Microsoft Partner for Application Integration. Our Microsoft Azure certified experts backed up by large number of integration (strategy to implementation) projects experience can help you accelerate your journey to integration.

Our Approach

Agenda

Day 1. Kick-Off meeting, understand integration scenarios and review the scope of POC.

Day 2 Priorities 2 integration flows, analysis, design, object mapping, setup connection mechanism, understand error handling requirements

Day 3-4. Azure Setup and Develop

- Setup Azure Integration Services Configuration
- Develop and unit test POC (Proof of Concept) to Integrate SaaS applications
- Document the deliverables

Day 5. Final walkthrough of the approach, solution and integration processes, Proof of Concept closure, and planning of next steps.

Deliverables

- POC design,
- implémentation code base and documentation (Optional)

Testimonial

We worked with NeosAlpha to deliver an Integration Strategy to help us start our journey on implementing our vision of 90% of our customer services being delivered digitally. The time we spent with NeosAlpha was very beneficial and they helped us shortcut an awful lot of learning we would've had to do ourselves. They came with a rich experience of delivering varying sizes and scales of integration and were able to explain how we could avoid some of the pitfalls that exist. We delivered the strategy very quickly which was directly linked to the quality and competency of the NeosAlpha team. – **Paul Fitton, Head of IT Architecture, Home Group.**

About NeosAlpha

NeosAlpha is an integration expert IT Consulting and Services company focused on delivering accelerated value through our expertise in selective technologies, platforms and low-code approach - empowering businesses to compete and thrive in the modern data-driven economy.
