

Chinese walls solution for Dynamics 365

Bridging the security gap between Dynamics 365
and financial institution compliance

Wipro provides an end-to-end breakthrough solution for the stringent security and compliance related guidelines with respect to Microsoft Dynamics Customer Engagement. The solution ensures secured collaboration in complex deals in commercial banking to limit the access to sensitive information and documents to specific stakeholders, only for the required time period.

Enhance confidentiality levels for critical business deliverables

Manages virtual team creation across the organization

Controls data access to the virtual teams

Facilitates secured collaboration

Provides time bound access to team members

Secures communication specific details regarding the confidential business entities

Key benefits

- Complies with banking regulatory requirements
- Configurable team definitions
- Easily configurable document access

Integration with Dynamics 365 Customer Engagement and SharePoint for an end-to-end CRM solution

Dynamics CRM based plug-in solution
for commercial banking, managing
private and public sites

Secured access for emails, phone
calls, appointments and posts

Features

Secured
collaboration

Time bound access
for team members

User based access for CRM
entities and documents
