

Dynamics NAV to Dynamics 365 Business Central Migration Assessment

Microsoft Dynamics 365 Business Central is a full cloud ERP solution designed for businesses that have outgrown basic accounting software and need to connect processes across finance, supply chain, manufacturing and projects.

Sign up for a two-hour, complimentary fit-gap assessment, where a Turnkey expert will assess how you can leverage your existing Dynamics NAV investments and adjust your strategy to take advantage of Microsoft's advanced cloud capabilities in Dynamics 365 Business Central.

Agenda

- Review your current Dynamics NAV environment
 - Licensing, setup and configuration
 - Current modules, used vs. dormant
 - ISV installations
 - Integrations and customizations
- Review your goals for Dynamics 365 Business Central
 - Challenges in Dynamics NAV
 - Business objectives for Dynamics 365 Business Central
 - Future goals for IT

Deliverables

- Recommended process improvements available in Business Central
- Personalized roadmap of key steps to go-live on Business Central
- Customized "trade-in" discount for your old Dynamics NAV licenses

Why Turnkey Technologies?

Voted Best in Reliability by St. Louis Small Business Monthly, Turnkey Technologies is a Tier 1 Microsoft Partner focused solely on turning your most ambitious business goals into reality through Microsoft business solutions.

As monolithic, on-premise ERP solutions have evolved into flexible, cloud-based platforms, Turnkey has helped hundreds of companies stay ahead of these industry-driving trends. Let us help champion positive change in your organization and give your Microsoft Dynamics solution a lasting impact.
