

Azure Migration Services

MINIMUM DISRUPTION SHIFT TO AZURE

Zensar's **Azure Migration Services** can help you with seamless migration of workloads to Azure Cloud or Azure stack. This includes Next Gen accelerators that fast-track the migration, well defined procedures to avoid common pitfalls, and procedures to meet security and compliance requirements.

Azure Migration Services includes Re-hosting, Re-platforming, Re-architecting the applications to Microsoft Azure, and Replenish to Dynamics 365.

- Experience **10x** improvements on application performance on Azure
- Comprehensive **Cloud Strategy and adoption** approach
- **Full Visibility** of Application Landscape using detailed Application Portfolio Rationalization Assessment
- Detailed **TCO analysis** to create a business case for **Application migration** to Azure Cloud or Azure Stack.
- **6R approach** to determine application's future

Next Gen Accelerators

ZCloudStrategics™ Framework powered by **Azure Cloud Adoption Framework**: outlines the strategy for application migration.

ZappIntellect™: Automated platform to perform the **Application Portfolio Rationalization Assessment** to determine the readiness of an application **to be MS Azure ready**.

Vinci™: Vinci™, integrated with **Azure Migrate**, will provide right sizing & TCO analysis on workloads for Azure migration.

Wired Autonomics Platform™ to deploy any app on **Azure Cloud** and customer's Private Cloud powered by **Azure Stack** and accessible from any device.

ZenGate™ Framework enables a faster approach and mechanism to implement **Azure Landing Zone**.

Service Offering

Advisory Services – Migration

- Assess | Analyze | Design | Plan

Migration Services

- Detailed Application Portfolio Rationalization Assessment using ZappIntellect™ platform & right sizing & TCO powered by **Azure Migrate**.
- Setup Azure Landing Zone with **ZenGate™ Framework**
- Design & build Azure estate for Applications (Access, Security, Availability & Resilience)
- Migrate Databases to Azure cloud using Vinci powered by **Azure Database Migration Services**.
- **Move large amount** to data from on-prem to Azure using **Data Box**.
- Configure **Automated DR** using **ZenDRaaS™ Framework** powered by **Azure Site Recovery**
- **CRM migration to Dynamics 365**

Free 5 day Consulting for Azure Migration

Day 0: Objective setting and scope definitions are determined. Brief overview of the current state and the desired future state of Applications

Days 1 & 2: We review the client's Applications estate (Servers, Database, Web Apps & Data) and determine the impact of those applications on client's business functions.

Days 3 & 4: We work with your technical team(s) to collect the data for applications and infrastructure. We layout the approach and plan to perform APR assessment and outline the key deliverables of APR assessment

Day 5: We deliver a report detailing the approach, recommendations and roadmap to initiate your applications migration to the Azure.

Zensar has your Azure Migration covered:

We neutralize migration complexities through our Next Gen Accelerators wrapped around Azure services and well defined processes.

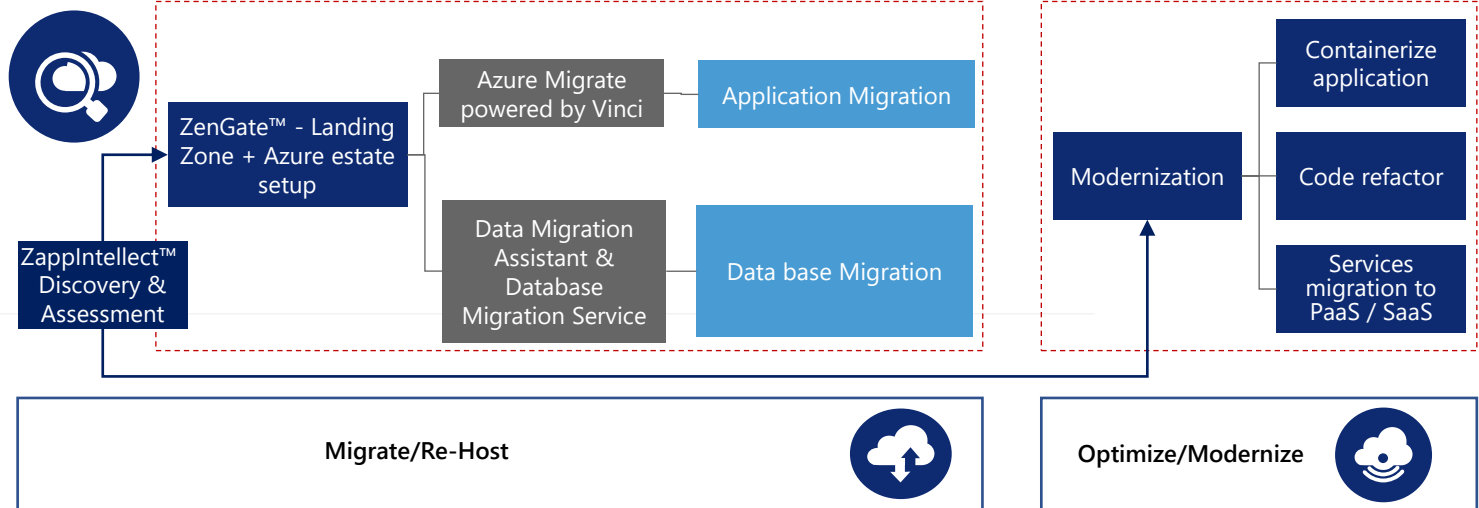

Zensar's Azure Migration Services move your Apps and Data to Azure quickly and efficiently while using Zensar's Next Gen Accelerators that:

- Creates Application's Persona w.r.t. Complexity / Risk / Security / Dependency / Performance) and helps in deciding migration move groups
- Provides a detailed TCO analysis to decide the workloads to be migrated to Azure Cloud or Azure Stack
- Move legacy Windows / Linux systems to modern operating systems
- Strategize on critical and frequently accessed data, its archival
- Factor the compliances & regulatory requirements of client based on business needs

A 5 day Consulting for Azure Migration

- Speak to our Azure experts!
- We have domain expertise to match.
- We tell you what it will take to make the migration successful.
- You'll know Zensar is the right fit before you make any commitments!

Azure Consulting Services

Why Zensar? Fortune 2000 companies are using Zensar's Digital Infrastructure Services to move to Azure. We are a Gold Certified, Globally Managed, Microsoft Azure Cloud Solution Provider.

Microsoft partnered with Zensar to create the Azure Cloud Adoption Framework.
