

ENVISION BLOCKCHAIN SOLUTIONS

ABOUT US

Envision Blockchain Solutions is a Blockchain Ledger Agnostic Systems Integrator. Our mission is to reshape and align today's Enterprise systems allowing organizations to recognize the new value in tomorrow's Industry Vertical Solutions. The management team has years of Fortune 500 experience and has built a team of subject matter experts in Blockchain and Business Transformation Processes within Emerging Technologies. We focus on guiding organizations through 3 major milestones on their Blockchain journey: Use Case Analysis, Proof of Concept Development and Enterprise Scaled Deployments.

WHAT WE DO

TRAINING WORKSHOPS

Envision Blockchain provides educational and thought provoking workshops that help explain blockchain technology, discuss common use case patterns, while putting solutions into the hands of the audience in order to generate the "Aha" moment.

BLOCKCHAIN SERVICES

As a full service consultancy with a niche focus in blockchain integration that leverage Modern Cloud Solutions, Envision Blockchain provides their clients an innovated experience that ranges from Blockchain Use Case Ideation to Solution Development & Production Deployments

MODERN CLOUD SOLUTIONS

Our team has a wide range of Business Transformation and Modern Cloud implementation experience that is supported by a mature DevOps practice that is necessary to develop flexible and scalable enterprise-grade applications that deliver value.
