

# Get the most from Microsoft Dynamics on your own terms DXC Concerto™

Choose the right cloud for your business.

## Benefits

- Nearly a decade of experience as a cloud services provider
- Deep Microsoft Azure™ deployment and support expertise
- First hybrid cloud provider for Microsoft Azure
- 250+ Microsoft Dynamics implementations in the cloud
- Personalized support featuring monthly check-ins

Successfully migrating your Microsoft Dynamics solution to the cloud with customizations and integrations intact isn't a myth. In fact, moving to the cloud now can help propel your business growth.

From transforming Microsoft Dynamics into a cloud-enabled powerhouse to moving to the new Microsoft Dynamics 365, DXC Concerto™ has helped hundreds of customers choose the right cloud for their business.

Concerto offers a broad array of cloud expertise:

- Cloud advisory and planning services
- Migration and technical services
- Fully-managed hybrid cloud
- Microsoft Azure™ configuration and management services
- Hosting of legacy and on-premises versions, as well as third-party and integrated solutions

## There's no catch

Proven protocols. An amazing uptime record. World-class security. Lower costs. Join the many organizations benefiting from the best-in-class managed cloud and enjoy these benefits:

- Save between 40 percent to 60 percent versus on-premises management costs
- No penalty to switch cloud platforms, no need to lock-in, no catch
- Multi-cloud integration capabilities, reducing the need to rework code or move workloads

Your business benefits significantly from a cloud solution no matter what version of Microsoft Dynamics you use.

## Start with an evaluation

Our experts provide a platform-agnostic evaluation of your current Microsoft Dynamics environment and related

“The service, as well as the response time, are extremely important to 24-hour shops such as ours. For us, DXC Concerto has been and continues to be outstanding in both areas.”

**Ken Washington**

Chief Information Officer,  
Tampa Port Authority

applications. We recommend the right cloud solution for your business and your version of Microsoft Dynamics. And DXC Concerto securely moves your Dynamics solution to the right cloud with little to no disruption to your business.

**Use Cases**

- Move your current Microsoft Dynamics system to a DXC Concerto™ Managed Cloud and realize the benefits immediately
- Get management and support of your cloud-based deployment
- Evaluate a move to Microsoft Dynamics 365 to identify the migration and management requirements
- Solve EOL Windows Server 2008 and SQL 2008 security and legacy hardware issues without penalty when ready to move to Dynamics 365
- Integrate and increase performance of third-party and custom solutions through moving to the cloud

**Cloud options for Microsoft Dynamics****DXC Concerto™ Hybrid Cloud**

- 99.99% uptime guarantee for your mission-critical workloads
- Always-on delivery, unlimited memory, no maintenance windows
- Customization for your needs
- Customizable security posture in our cloud data centers
- Compliance with even the strictest regulatory standards
- Fully managed service, with flat-rate billing
- Ability to connect applications from multiple clouds — seamlessly

**Microsoft Azure™ services**

Provides full management of your Microsoft Azure platform for Dynamics, including:

- Asset management focused on controlling costs, increasing performance and strengthening security
- Provisioning/deployment help and software configuration
- Resolving performance issues due to missing or misconfigured settings, incomplete software integration, permissions problems or other deployment issues
- Management of development environments
- Express migration packages to reduce or remove the cost and effort of moving Dynamics to Azure IaaS

**Other digital transformation initiatives**

DXC Concerto provides a holistic cloud-based solution for legacy or custom-developed solutions related to Microsoft Dynamics:

- Hosting of third-party and customer solutions. These can be moved to the cloud for integration, retention, performance or reasons related to customer preference.
- Hosting of legacy versions of Microsoft Dynamics. This helps customers gain immediate benefits of the cloud while planning larger transformation initiatives – all without penalties when moving to Dynamics 365.
- Cloud-based IT and virtual desktop infrastructure. This offering provides IT infrastructure, self-healing cloud desktops, security and seamless delivery of applications to users.

"After we invested in Microsoft's Health Check service to try to make our Microsoft Dynamics CRM system stable, and it didn't work, we knew we needed to do something different, and do it right. Not only did we move two applications (Microsoft Dynamics CRM and Dynamics GP) to the cloud, but we also upgraded them at the same time that we moved them. It went off without a hitch."

**Angela McDaniel**

Chief Administrative Officer,  
Ascende – a Division of EPIC

**Put Dynamics on the cloud express to Azure**

DXC Concerto's ERP to Azure Express Migration provides a streamlined migration for organizations that want to move their existing solution to the Azure cloud.

This solution addresses end-of-life software or equipment issues and supports organizations not ready to move to Dynamics 365 and/or challenged with cost and management issues related to maintaining the ERP system.

**What are the benefits of the ERP to Azure Express Migration?**

- Provides a rapid 1-to 4-week migration of Dynamics to the Azure cloud with pre-defined assessments, automation and technical services
- Increases application resiliency and performance
- Offers conversion for server licensing under Azure programs and single point of billing for Azure consumption and support
- Delivers multiple support options
- Provides ongoing cost control and support for the Azure platform

**Why DXC Concerto?**

DXC Concerto, the mid-market cloud offering within DXC Technology, specializes in providing a best-in-class multi-cloud platform that helps organizations accelerate digital transformation and realize their full potential.

We make cloud adoption easy with unrivaled uptime and accelerated delivery, worldwide. Our strategic partnerships include Microsoft, NetApp, and Cisco.

Delivering application expertise, innovation and service excellence in every engagement, we serve as trusted advisors to clients and application partners seeking to better manage risk and reduce operational challenges.
