

ADAPTIVE • RESPONSIVE • STRATEGIC

## Azure Data Backup and Recovery

# AgileProtect

Delivered by **Agile IT**  
**We make IT easy**

# Who We Are

Agile IT is a Digital Transformation expert focused on Cloud Computing, Security and Software as a Service. We specialize in migrating and managing IT services for customers looking to get the most from their IT investments. We strategically partner and align with Microsoft, Amazon Web Services, Okta, VMware and more.

## Speed

Time to deployment,  
productivity, and  
security

## Transfer

Emails  
Files  
Collaboration  
Workflows

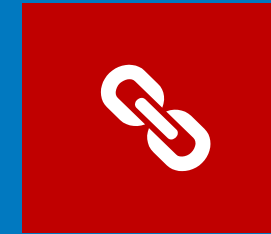

## Productivity

Office 365  
Azure  
Amazon Web  
Services

## Settings

Onboarding  
Deployments  
Managed services

## Security

Security Hygiene  
Incident response  
Compliance  
Remediation

## Communication

Online  
Phone

## Community

Build a community of managed  
customers that maximizes cloud and  
SaaS services to drive their business

## Security

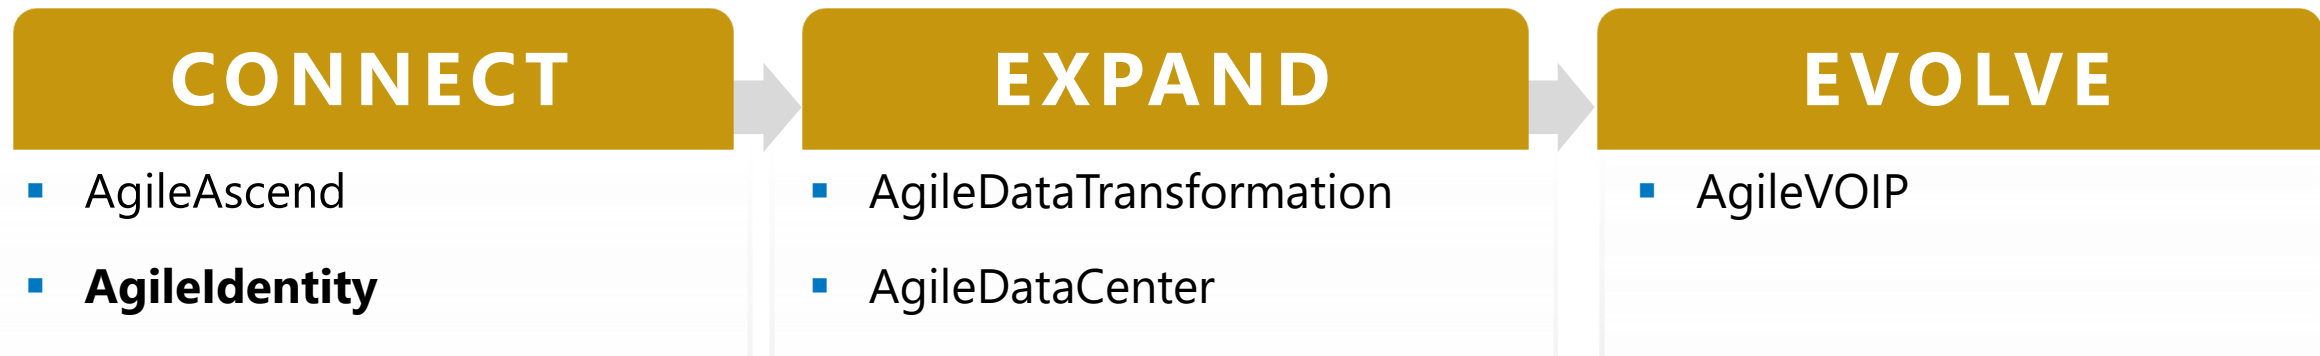

Continuously deliver best practices and  
operations for security and compliance  
while maintaining customers' business  
productivity and collaboration

## Digital Transformation

Drive Digital Transformation through  
automation, integration, and process  
improvements by leveraging modern IT  
practices and cloud services

# Do You Have A Strategic Roadmap?

## AgileIdentity

Active Directory, Identity + Data Protection, Security Services, Support

Productivity	Office 365: Mail	OneDrive	PowerBI & PowerApps
		Teams	Flow
		SharePoint	Dynamics 365
Infrastructure	Active Directory	Azure File Services	Data Stores & Databases
	Azure Active Directory	Virtual Machines & Storage	Skype for Business Online
		Federation Services	Integration Services
Desktops & Devices	Office Pro Plus	Windows 10 Deployment	Agile IT's DevOps Process and code base assures repeatable results with full documentation
	Office Mobile Apps	Azure Mobile Dev. Mgmt	

Agile IT's repeatable code assures strong foundations and consistent delivery.

# AgileProtect: Protection

According to a 2013 market study by Forrester Research and the Disaster Recovery Journal\*

Follow the Golden rule of DR:  
Plan to fail – don't fail to plan

More than **1/3** of systems are considered mission-critical

**35%** of companies reported that business expectations did not match with IT capabilities

**2%** of companies experienced downtime of less than **1** hour

**33%** of companies experienced downtime of **21** or more hours

Median actual recovery times were **8** hours

**1** in **3** companies have declared a disaster in the past **5** years

## Case Studies

**C.W. Driver**  
BUILDERS SINCE 1919

### Agile IT Azure Cloud Solutions Help C.W. Driver Execute Cloud Computing Strategy

C.W. Driver is a leading California-based general contractor serving the education, healthcare, retail, industrial and civic sectors since 1919. After investing in Office 365, C.W. Driver's IT team realized it needed a cloud expert to propel the company's cloud computing strategy and long-term vision.

*"Agile IT is well-founded in cloud computing and cloud engineering, so I was confident to move forward with the project."*

Blaine Crawford, IT Director
