

Introducing Storyals.

About Storyals :

Storyals provides a unique solution for organizations to build digital skills in Microsoft 365 and accelerate digital workplace adoption.

*Storyals is designed to **INSPIRE**, **MOTIVATE** and **EDUCATE** users to achieve more through an optimized learning experience based on storytelling.*

Microsoft 365 holds the key to modern ways of working, but without guidance users can easily be overwhelmed.

The Storyals methodology:

Designed to “Inspire, Motivate and Educate” – Transitioning to a modern workplace on Microsoft 365 requires users to change behavior. To change behavior, it is necessary that users *want* to change. Storyals’ methodology is built on inspiring, motivating and educating users through real-life story-telling to spark interest and excitement.

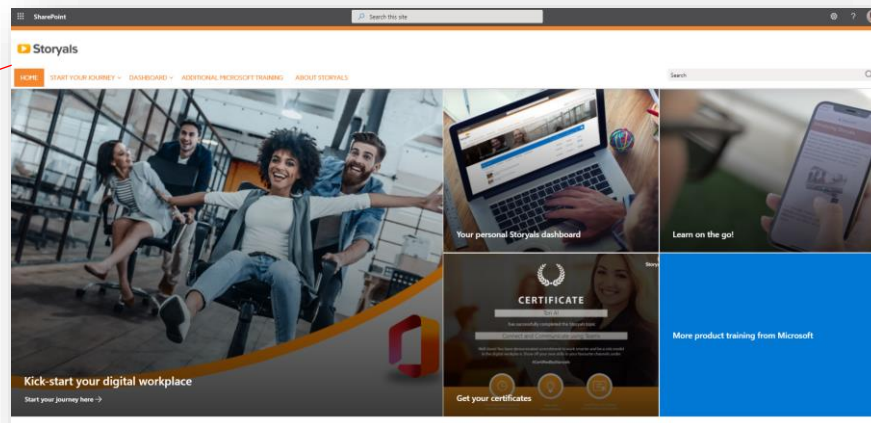

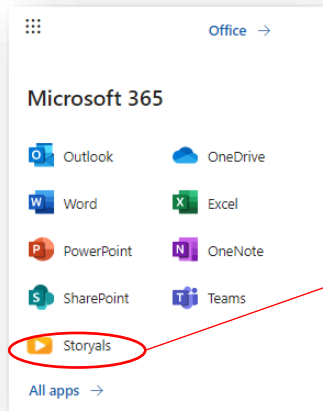

Optimized for today’s time-strained workforce – Today’s time-strained, dopamine-hungry workforce easily gets bored with traditional training – whether it is in a classroom or online. Storyals methodology is to maximize results by focusing on “what you need to know” to minimize disruption.

Developed for the modern workplace – Microsoft 365 adoption is a continuous journey. The Storyals subscription-based solution is developed for today’s modern workforce that demand anytime access, instant results and updated content. The Storyals Microsoft 365 Adoption Kit has been developed after years of experience working with customers on Microsoft 365 adoption.

Storyals Lite:

Best for quickly getting started with an out-of-the-box Microsoft 365 adoption center.

- ✓ A ready-to use adoption site in SharePoint Online
- ✓ Streaming access to all Storyals videos
- ✓ Continuous video updates

A story-based tutorial:

1-2 hours of
product training
covered in 10 min

Real world
scenarios

Best practices
in context

Focus on
"What you need
to know"

Samples of Storyals unique content.

Quick overview video (approx. 2 min)

Short overview video designed to spark interest. Can be used in newsletters, in portals, in social networks, etc.

Introduction video (approx. 5-10 min)

Step-by-step guidance by productivity expert Ulrika Hedlund, on when to use what, how to get started and best practices.

Story-based tutorial (approx. 10 min)

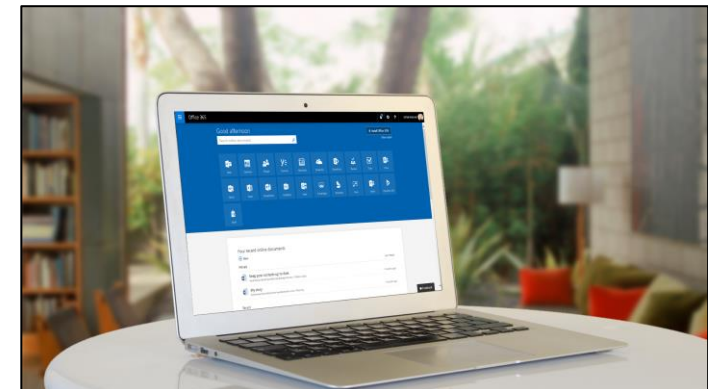

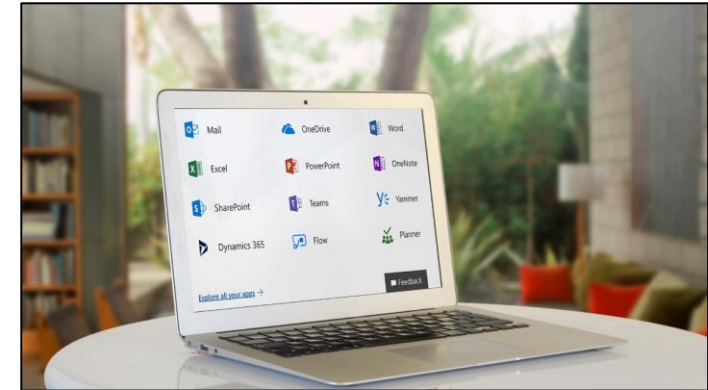

A story-based tutorial demonstrating how the tools are used in real life to achieve better results by effectively using Microsoft 365

Storyals is a subscription-based offering.

What are the benefits with a subscription-based model?

- Microsoft 365 is an ever evolving solution – functionality as well as user interface change on a frequent basis
- Even slightly outdated training material becomes obsolete and confuse rather than help end-users
- We equip business with continuously updated content – adjusting content /stories to changes in Microsoft 365
