B-BBEE | COMPREHENSIVE SCORECARD | fusion the apps people

A B-BBEE Comprehensive Scorecard Solution

B-BBEE Comprehensive Scorecard allows users to create and update the various B-BBEE elements associated with the B-BBEE Codes of Good Practice Scorecard. Update B-BBEE related data at point of purchase, invoice, hire or as you may require which combined with seamlessly integrated B-BBEE statutory requirements & Reporting tools enables you to monitor scores & progress made throughout the measurement period.

What we Offer

Set your own targets to specify your company's comprehensive B-BBEE Scorecard requirements.

Single or multicompany reporting – view and print spend, contribution and demographic analysis, for a single company or multiple companies from one workspace.
Analytics dashboards – view spend, contribution and demographic by level as well as target vs actual.

Data available after invoice, payment or employment capture – reports are updated real time

Monitor recognized contributions and spend – view and print all reports for a single company or multiple companies from one workspace.
Status and Target setups are date driven ensuring spend is allocated to the correct measurement period
