# Azure DevOps Innovate Workshop

# Workshop Overview

This workshop is designed to help you explore how Microsoft Azure DevOps can help you enable continuous delivery of value.

This workshop will include several labs to demonstrate how to apply Agile, Continuous Integration and Continuous Delivery (CI/CD) and DevOps principals with Azure DevOps.

Additionally, the workshop aims to accelerate your first project with dedicated “build” time with facilitators to get you started with the first few steps of your project.

This is a hands-on 'build-with' workshop and as such attendees will require software development experience.

This process also allows for some minor tailoring of workshop content – and follow-up time to answer questions that may arise through the workshops.

**Duration:** 2 Days

**Workshop Style:** Guided learning and hands on build

**Target Audience:** Developer / Tester / Product Owner

**Prerequisites:**

- Laptops, Azure DevOps licenses and internet connectivity for Hands-On training
- Azure Subscription for a POC solution to be deployed to
- Foundational Development Experience using Microsoft Visual Studio
- Understanding of Agile and DevOps Concepts

**Outcomes:**

- Understanding of how Azure DevOps enables Agile, CI/CD and DevOps
- Guided “build with” experience for Proof of Concept solution
- Showcase to your management the ease of automated project deployment.

# Sample Workshop Agenda

## Azure DevOps Innovate Workshop

### Day 1

09:00	Introductions
09:15	<b>Introduction:</b> Azure DevOps presentation
09:45	<b>Demo:</b> POC solution attendees will build on Day 2
10:30	Coffee Break
11:00	<b>Guided:</b> Hands On Labs (role specific)
12:30	Lunch
13:00	<b>Guided:</b> Hands On Labs (role specific)
15:30	Wrap up + Questions

### Day 2

09:00	Recap Day 1 + Questions
09:15	<b>Build Day</b>
10:30	Coffee Break
11:00	<b>Build Day</b>
12:30	Lunch
13:00	<b>Build Day</b>
14:00	Showcase + Presentation
15:00	Wrap up + Questions
