

APP MODERNIZATION ASSESSMENT

Let SWC help your organization envision the future of your applications with alignment to the business strategy. We will discover and score your significant applications and analyze each to determine future action and business impact.

Envision

- Collaborate with CIO/CTO to understand future goals and business strategy

Discover and Score Significant Applications

- Importance
- Supportability
- Innovation Opportunity

Analyze

- Showcase scores based on discovery in Power BI dashboard
- Graph money spent on each app vs how much should be spent

Recommend

- Retire, Replace, Retain, Rehost or Re-envision
- Rank Priority
- Estimate level-of-effort and cost

INITIATIVE ANALYSIS

- IMMEDIATE INITIATIVES
- FOLLOW-UP INITIATIVES
- FUTURE INITIATIVES

SIZE of the initiative represents the relative effort, compared to the other initiatives

CLOUD READINESS, along the Y Axis, represents how quickly we can act on this initiative, based on dependencies, understanding of need, and other factors

BUSINESS VALUE, along the X Axis, represents the relative value of the initiative, considering client priority, hard ROI like equipment savings, and soft ROI, like increases in productivity
