

BAM ASSESSMENT

Business Application Modernization

SWC | TECHNOLOGY PARTNERS

A BDO USA Company

Legacy applications limit our ability to drive revenue, decrease cost and risk – It's time to modernize, leverage current technology and deliver innovation and automation in your application portfolio.

BUSINESS APPS ARE THE LIFEBLOOD OF YOUR BUSINESS — IF THEY AREN'T WORKING, NEITHER WILL YOU

THE PROBLEM

Business Apps age with time, increasing cost and risk

Most organizations accumulate a large portfolio of business applications that run aspects of their business. Often this includes applications running on disparate and aging servers that have not been reviewed in some time.

Applications frequently run on older, more difficult to support technologies and many may not adhere to current application, user interface, and security standards – increasing cost and risk.

THE SOLUTION

Before you can take action, you need to know what you have

Complete a review your application portfolio to make data-driven business decisions around the best way to manage outdated software to improve operational efficiency and security.

BAM APPROACH

RETIRE

Eliminate outdated software and systems that are holding you back

REPLACE

Replace with modernized software solutions to increase productivity, security and user experience

RETAIN

Keep the apps that are working for you – If it's not broke, don't fix it

RE-PLATFORM

Explore moving to cloud-based platforms for efficiency, security and cost savings

RE-ENVISION

Innovate with custom app development that meets your business's unique needs

SWC KNOWS SOFTWARE

35+ Years in Software Development

We've done this thousands of times – We'll drive the process and you'll benefit from our experience.

Business Drives Technology

SWC's partners with companies to understand their business first and align to the best fit technology solutions.

100% In-House

SWC has in-house software solutions, cloud, security, managed services and user enablement and adoption teams to address full-service needs as they arrive – no subcontracting or off-shoring.

YOUR BUSINESS SHOULDN'T HAVE TO CONFORM TO YOUR SOFTWARE — YOUR SOFTWARE SHOULD CONFORM TO YOUR BUSINESS

Funding is available for qualified organizations.
