

Dynamics 365 Consulting Jumpstart Implementation Service

Gold Cloud Platform
Gold ISV

QuickStart: *Designed for small-business customers with fewer than 15 users, this package will address the requirements of your key business process.*

Seepath's QuickStart service assists you with an initial application setup to support your key business process within a time span of 1 week and create a road-map to help you meet future business needs. This approach helps you to realize a faster return on your Dynamics investment and achieve user adoption.

Deliverables:

This QuickStart service includes the following deliverables based on the priorities identified by customer and Seepath Solutions (Seepath).

- ✓ Review business requirements and key business process
- ✓ Fit/Gap analysis and solution design
- ✓ Dynamics 365 Subscription and User Setup
- ✓ Setup/Configuration per functionalities identified by Customer & Seepath
- ✓ Data Import for Accounts, Contacts and Leads. Opportunities and/or Cases(optional)
- ✓ Post configuration solution review
- ✓ Scenario-based on-line training to end users
- ✓ Recommendations for additional configurations not covered in this QuickStart Assist service, based on the customer's business process

** Note that QuickStart services are not designed to support advanced deployments, complex workflow, data migration, or complex reports and dashboards.*
