

Achieve all-round Analytics success with OmniData

OMNIDATA OVERVIEW

OMNIDATA is a high-performance, Microsoft focused partner providing specialized business technology consulting services in the areas of Analytics & AI, Cloud Modernization and Data Estate Modernization. With a dedicated team focussed on Power BI, we can assist you with any Power BI support issues.

Our mission is to simplify complex problems and help customers maximize value.

WHAT WE DO:

ANALYTICS & AI

OmniData Insights is at the forefront of analytics & AI, delivering proven solutions for industries through a deep understanding of what it takes to be successful in the industry and driving digital transformation.

CLOUD MODERNIZATION

Organizations are all at different levels of Azure adoption. With OmniData Insights' skill and experience in cloud enablement we are uniquely positioned to help any customer explore and find the next right step.

DATA ESTATE MODERNIZATION

The data journey is one of the most important modernization steps for any organization. OmniData Insights is a gold certified data platform partner with skills in all Azure Data Services.

WHAT OUR CUSTOMERS ARE SAYING

"OmniData helped us to understand, decide and implement the right Azure technologies and Power BI models to build a cloud scale analytics architecture that supports analytics, reporting and machine learning..."

– Keith Durna, CEO, AUSPI Group
