.NET Modernization in a Day workshop

Microsoft's .NET Modernization in a Day workshop is built to help you evaluate your applications, prepare them for migration and host them on managed tools in Azure that were purpose-built for .NET.

Web apps modernization journey

Assess
Determine if your website is a good candidate for Azure App Service by scanning its public URL – for free and just within a few minutes

Migrate
Choose your path to the cloud by redeploying your code, containerizing your application, or lifting-and-shifting with migration tools

Innovate
Take advantage of proactive and intelligent analytics, DevOps practices, or pre-built AI components, to offer an enhanced experience

FyrSoft's Principal Microsoft Offerings
