- Managed Services Everywhere
- Cloud Optimisation & Analytics

CenturyLink

Cloud Connect

Private, secure connectivity to the Cloud.

**Cloud Connect
Solutions**
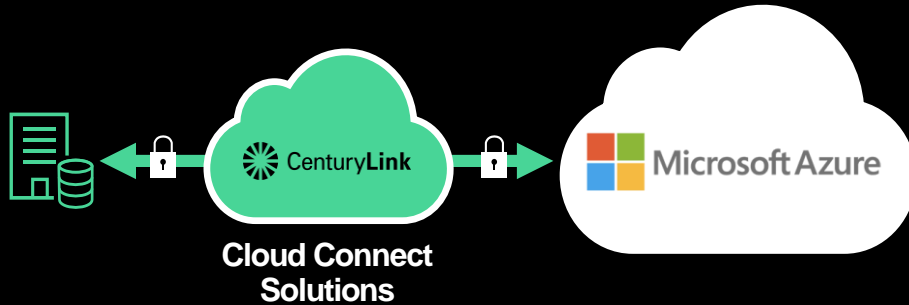

Why CenturyLink?

Predictable and Reliable Performance
Maintain control over performance of applications as you migrate them to public and private clouds

Simplified Security
When choosing private connectivity, the applications you migrate and optimise are within your perimeter

Dynamic Agility
SDN orchestration allows you to take control of user experience and dynamically respond
Global Connectivity
Connect offices around the world to the cloud and DC resources needed to run mission-critical applications
