IMPENDLE LOCAL MUNICIPALITY

**REFERENCE:**

**ENQUIRIES: AT Mkhize**

**DATE: 22 June 2015**

**Project Completion**

To whom it may concern,

Gijima successfully completed an engagement at Impendle Municipality to address the identified business objectives and provide a solution that is delivered with the business requirements of Impendle Municipality. The following technologies and key deliverables were used to complete the tasks as part of the engagement.

Project technologies and deliverables:

- ▶ Implementation and configuration of Microsoft Azure Site Recovery (ASR) into Azure
- ▶ Implementation and configuration of Windows Server 2012 R2 Hyper-V Platform
- ▶ Implementation and configuration of Cross Premise VPN Connection
- ▶ Migration of Small Business Server Active Directory to Windows Server 2012 R2 Active Directory
- ▶ Migration of File Server to Windows Server 2012 R2
- ▶ Physical to Virtual Migration of Application and Database Server to Windows Server 2012 R2

The key business benefits and objectives of these technologies implemented are to deliver:

- ▶ Robust Hybrid Cloud Solution
- ▶ Simplified and Orchestrated Disaster Recovery
- ▶ Provides Secure and Scalable Cloud Solution
- ▶ Reduced hardware costs
- ▶ Allows smooth transition and live collaboration among local resources and the cloud-based resources
- ▶ Automated protection and replication of data

For any project related queries, please do not hesitate to contact the Technical Lead on the details below:

- ▶ Mr. Gerhard Coetzee
- ▶ (082) 326 1998
- ▶ Solutions Specialist
