

Modern Workplace Maturity Assessment (MWMA)

Digital transformation is challenging. A business led technology strategy is key to success.

Over 70% of digital transformation projects fail. Lack of alignment between business outcomes and technology strategy is a common barrier.

What is the MWMA?

Our consultants will guide you through our proprietary focused and rapid analysis to develop and implement a modern workplace strategy, accelerating your transition to a productive, modern workplace. Bringing together business and IT leaders, we combine a strategic review of 10 key business areas with a technology review of your existing Microsoft on-premise or cloud infrastructure. Our recommendations enable you to maximise the benefits from your existing capability and identify areas for future technology investment.

Why customers use the MWMA

- Bring business and IT leadership together to define strategic goals
- Align technology strategy to business outcomes
- Maximise return from existing Microsoft technology investments
- Create a clear roadmap for future Microsoft technology requirements
- Speed up delivery of key digital transformation projects

Holistic Approach

Put technology and business leaders in the same room

- Ensure buy-in and contribution from all key stakeholders
- Align business strategy with technology strategy

Focus is on momentum, delivering one goal after another

Secure & Compliant

We are a security company first

- We believe in security by design, not as an afterthought
- ISO 27001 certified across all products and services

Complex modern workplaces need a new approach to security

"The Maturity Assessment really opened our eyes to the transformative possibilities of modern working in our organisation. The strategic nature of the engagement has allowed us to have a much clearer understanding of what's possible in the short to medium term and will help us deliver real change effectively."

James Fogarty, Cork County Council
