Windows Virtual Desktop
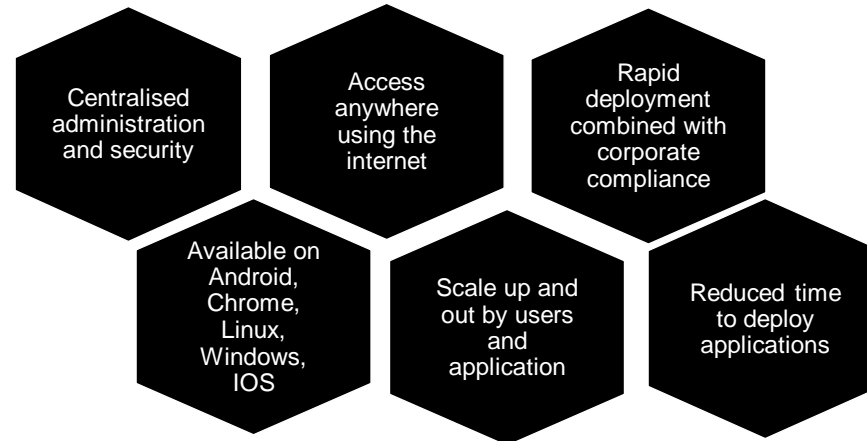

Solution Overview:

Deliver a full Windows 10 desktop experience to any user on any platform

Solution features:

- Connect users to your corporate applications from home or abroad
- Available anywhere with an internet connection
- Deploy custom desktops to keep your people working
- Use resource intensive applications on low-spec devices
- You may already have licences through your existing Office365
- Short, medium or long term deployments available

Benefits:

- Centralised administration and security
- Access anywhere using the internet
- Rapid deployment combined with corporate compliance
- Available on Android, Chrome, Linux, Windows, IOS
- Scale up and out by users and application
- Reduced time to deploy applications

WVD is available through DXC in the following tiers:

Type	Description
Basic	Small enterprises, office hours support, max 50 users
Intermediate	Mid-sized enterprise, office hours support, max 150 users
Advanced	Large enterprises, tailored support, up to 500 users

FastDesktop (WVD): rapid implementation in 2 weeks from £5k*

What we deliver:

Virtual Desktop
