

Database Modernization in a Day Workshop

FyrSoft invites you to a deep-dive, interactive workshop on how to migrate your data to the cloud. We are hosting this one-day workshop to discuss everything from brainstorming migration strategies to hands-on experiences with data migration tools, and we would like you to take part in the workshop!

In this workshop, professionals in Data Management and technical decision-making roles will better understand:

The reasoning & value of migrating your data to Azure

How to whiteboard a Data Migration strategy

Tools & methods available to help you migrate your data

Morning Session: Focus on your data migration use cases, the Total Cost of Ownership (TCO) calculation, common obstacles to avoid, and mapping out your migration/modernization strategy

Afternoon Session: Hands-on training to help you get started on your Cloud Migration journey

Labs: Focus on using Microsoft Azure SQL Database Managed Instance to lift-and-shift your databases to the cloud, and benefits of from having multiple databases on Azure

Audience: DBA, Technical decision makers
