AZURE HEALTH CHECK

Do you have the bandwidth and team to self-manage and optimize your ever-growing Azure infrastructure? Are you receiving proactive, locally-managed guidance from your existing Managed Services Provider (MSP)? Identify your opportunities and risks—and reinforce your current best practices—to give you a clean bill of health as you continue your digital transformation into the cloud.

HEALTH CHECK DETAILS

A remote Health Check is your first step to a secure and well managed cloud. Your Health Check report will provide you with a customized view into cost and security reporting, provide infrastructure optimization recommendations, and leverage our policy engine to audit your subscriptions for security.

PHASE 1
Onboarding

Discuss your environment and goals. Review your data sources and current monitoring practices. Get connected to your Azure subscriptions with read-access.

Interactive 1-Hour Remote Meeting

PHASE 2
Health Monitoring

Conduct a health watch and Azure consumption monitoring over 6-8 business days. Uncover trends, outlying behaviors, and overall performance.

6-8 Days of Proactive Monitoring

PHASE 3
Health Check Review

Review reports, findings, and recommendations for optimizations and best practices. Our team will work with you on best next steps and help turn insights into action.

Insightful 2-Hour Remote Meeting

YOUR PERSONALIZED HEALTH CHECK INCLUDES:

Cost Management
Review overall Azure spend and operational savings opportunities

Precision Reporting
View unique reporting based on your business groups

Customized Cost Reporting
View tailored reporting based on your organizational cost structure

Reserved Instance Purchases
Identify opportunities for reserved instance management

Resource Utilization
Understand your organization's needs to optimize across cost, usage, and performance

Governance & Security
Stay ahead of cloud security threats with reports on controls and security across your Azure environment
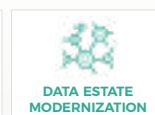

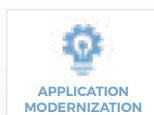

COST

$6,500*
