

Microsoft Windows Virtual Desktop

Windows Virtual Desktop is a cloud-based subscription service that enables desktop and app virtualization. It's the only VDI that supports multi-session Win10, optimization for Office 365 ProPlus and RDS environment. By combining Remote apps and Win 10 Full Desktop, WVD lets anyone access the full application and data landscape from anywhere within any device securely.

KEY USE CASES

Security & Compliance
Ensure no Data on the End-Devices, benefit from the cloud security tools and guarantee Data Protection regulation

Critical/Heavy Business Apps
Accelerate your app Update/Deployment without any downtime and ensure a high availability of Business Application access from anywhere at anytime thanks to the Virtual Apps (Remote apps)

Windows 7 ESU
Get your Extended Security Updates for free for all your Win 7 devices without any limit. Ensure a high availability for your Win7 devices and apps

Capex to Opex
Stop investing on buying heavy hardware + its maintenance and rely on an opex model where you can scale your environment WW in a minute

WHY Windows Virtual Desktop

SAVE YOUR COMPANY MONEY

Windows Virtual Desktop is available as a simple monthly subscription. Avoid large up-front costs for new hardware + software while moving the cost of IT from capital to operating expense. And without on-premises servers to run the hosts, you can reduce energy costs and save by no longer purchasing new server hardware.

SCALE YOUR BUSINESS QUICKLY AND FLEXIBLY

Windows Virtual Desktop grows with you on the Microsoft Azure cloud. Adding a new user, deploying a new application, giving access to a new group of people around the world is as simple as buying an additional license. Scale up, scale down, extend automatically your infrastructure to pay only what your users consume. A thin client is enough to connect.

TECHNICAL SUPPORT

Your Windows Virtual Desktop subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

FINANCIALLY BACKED SLA

Get peace of mind knowing your services are available when you need them by letting the system auto sizing itself

SIMPLIFIED IT MANAGEMENT

Reduce headaches by reducing your IT infrastructure. Don't waste anymore time maintaining the management infrastructure: a license per user is enough to cover all this related aspects. Focus only on what matters for your business: Data and Applications.
