Power BI

2-Day Assessment

An evaluation of your current BI processes that results in a detailed plan for Power B1 deployment.

This 2-day assessment is held on-site at your facility or remote.

The engagement will include meetings with your BI business owners, as well as IT stakeholders.

Deliverables ✉

- Clear visibility into a Power BI implementation for your business processes.
- Discovery, Analysis, and Migration/Implementation

Agenda 🕐

Day 1 | Discovery and analysis of your current BI environment.

Day 2 | Creation of a detailed plan to highlight overall migration/implementation process, customizations, data migration and integration.
