Betach DR as a Service

Protect your business with an Azure-based remote-site disaster recovery solution.

Benefits of DRaaS for VMware & Hyper V:

- Fraction of the cost when compared to an in-house data center & without the maintenance.
- Guaranteed failover & failback in as little as 15 minutes.
- Failover for both VMWare & Hyper-V virtual enironments.
- No impact or changes to on-premise IT services.

- Continuous health monitoring & orchestrated recovery.
- The ability to permanently failover to the Azure Cloud for lift-and-shift needs.
- Run all of your IT workloads in Azure instead of having your own dedicated data center.

Why Cloud-Based Backup?

- Flexible and highly scalable Infrastructure.

- Cost-effective utility pricing model - reduce capital expenditure, pay only for what you need.

- Centralized operations and capacity management capabilities.

Efficient, Cost-effective, and Secure DRaaS

About Us
