ON-PREMISES

V E R S U S (?)

CLOUD

INTEGRATION IS EASY!

BizTalk Server 2020 is great for on-premise usage!

Azure Integration Stack brings everything you need in the cloud.

On-time-cost. Very cheap if licensed together with Connectyd EAI or Connectyd EDI

Consumption based fee with no upfront costs

Most often, hybrid integration is best

Best for on-prem to on-prem integration of applications (SAP on-prem, etc)

Best for IoT, AI and cloud applications like Salesforce, Dynamics 365, etc.

Sunato.de

CLEVER EAI MAKES INTEGRATION EASIER

THE KEY FOR GOOD CONNECTIONS

✓ Use cleverEAI and cleverEDI to connect enterprise applications and business partners quicker.

✓ Reduce time for error handling and take advantage of best in class tools for monitoring and handling your dataflow

✓ Secure yourself against all imponderables with 8x5 to 24x7 SLAs
