Migration performed for premier health care organization

Founded in 1896, our customer, a leading health care premier organization representing the interests of the nation's 4 million registered nurses. They are at the forefront of improving the quality of health care for all. This organization have all members in all 50 states and U.S. territories.

BUSINESS PROBLEM: APPLICATIONS, DATABASES AND INFRASTRUCTURE MODERNIZATION AND MIGRATION

1. Our customer's vision is to transform their business and eliminate, strengthen or modernize their processes that are not efficient.
2. Lower TCO of Application Portfolio and associated infrastructure
3. Lower Administrative costs and complexity of current environment
4. Improve performance, stable Azure MySQL databases
5. Improve ability to scale environment

Our Solution

Migration done using Export and Import option and DMS (Database migration service)

1. To achieve Company's vision of business transformation, Motifworks solution performed assessment and migration for healthcare organization to move from On-premises MySQL to Azure MySQL databases.
2. We have supported in pre-migration assessment, migration of test and prod environment MySQL databases to Azure Mysql using our talented expert's team.
3. Build our customer institutional knowledge to increase velocity, adoption and success of client approach to Azure via education on Best Practices
