

# Migration Assessment

Microsoft Dynamics 365 for Finance and Operations is the most advanced cloud ERP solution from Microsoft and offers an easy path forward for current customers of other on-premise Dynamics solutions.

Sign up for a two-hour, complimentary fit-gap assessment, where a Turnkey expert will assess how you can leverage your existing Dynamics NAV investments and adjust your strategy to take advantage of Microsoft's premier cloud ERP solution for expanding enterprises.

## Agenda

- Review your current Dynamics NAV environment
  - Licensing, setup and configuration
  - Current modules, used vs. dormant
  - ISV installations
  - Integrations and customizations
- Review your goals for Dynamics 365 for Finance and Operations
  - Challenges in Dynamics NAV
  - Business objectives for Dynamics 365 for Finance and Operations
  - Future goals for IT

## Deliverables

- Recommended process improvements available in Dynamics 365 FO
- Personalized roadmap of key steps to go-live on Dynamics 365 FO
- Customized "trade-in" discount for your old Dynamics NAV licenses

## Why Turnkey Technologies?

Voted Best in Reliability by St. Louis Small Business Monthly, Turnkey Technologies is a Tier 1 Microsoft Partner focused solely on turning your most ambitious business goals into reality through Microsoft business solutions.

As monolithic, on-premise ERP solutions have evolved into flexible, cloud-based platforms, Turnkey has helped hundreds of companies stay ahead of these industry-driving trends. Let us help champion positive change in your organization and give your Microsoft Dynamics solution a lasting impact.
